BRISBANE QLD 4000

Dear Attorney

I am pleased to submit for presentation to Parliament my report on the State general election held on 31 January 2015. The report contains detailed voting results for every electoral District and a survey of ballot papers cast in a sample of Districts.

Additionally, the report outlines the conduct of the election, including innovations used and improvement opportunities for future electoral events.

Pursuant to section 18(3) of the *Electoral Act 1992*, the report must be tabled within three sitting days of your receipt. Once tabled, a copy of the report will be made available to the public on the Commission's website.

Yours sincerely

Walter van der Merwe

Electoral Commissioner

FOREWORD

Foreword

The Electoral Commission of Queensland is an independent body charged with responsibility for the impartial conduct of Queensland parliamentary elections. The State general election held on 31 January 2015 was the ninth conducted by the Commission since its establishment in 1992.

In the absence of fixed term elections, the Commission normally has no advance notice of when the election will be held. In this instance, the then Premier of Queensland announced the date of the election on Tuesday 6 January 2015 during the school holiday period. Voter turnout decreased

from 91% in 2012 to 89.89% at this election primarily as a result of the timing of the election. In addition, some administrative difficulty was experienced in confirming polling booth bookings at schools due to closure during January.

Since the 2012 State general election, the Commission has worked hard to encourage and assist all Queenslanders to participate in Queensland elections. I am especially proud of the number of new innovations introduced with the goal of making it easier for all electors to cast an independent vote.

Telephone voting was made available to blind and low vision electors for the first time at a Queensland election. The number of All District Centres was increased from five at the 2012 State election to eight at January's State election with the provincial centres of Cairns, Mackay and Bundaberg being included for the first time. eAssist terminals, which provided a mechanism for an independent and secret vote to electors with visual impairment, were installed at all eight All District Centres and at Vision Australia's head office at Coorparoo.

At this election, the use of Electronic Certified Lists (ECLs) were piloted at the All District Centres and in all polling booths across South-East Queensland with almost 800,000 marks captured by these devices. The absence of queues at polling booths and the positive comments received from electors that the Commission was delivering a more modernised approach to voting was encouraging for the future of elections in Queensland.

Finally, I would like to thank the staff of the Commission for their commitment and professionalism in the successful administration of this major electoral event. My thanks also extend to the 10,114 Queenslanders who worked for the Commission across the state at our 1,671 polling booths and pre-poll centres.

Walter van der Merwe Electoral Commissioner

Election Timetable

The chain of electoral events was triggered by the issue of the writ on Tuesday 6 January 2015. The first key event was the process of voter registration – every Australian citizen aged 18 and over is required to enrol to vote. In previous elections, once the writ was issued, electors had a period of five days in which to enrol or to update their enrolment details. Following recent amendments to the Electoral Act 1992, for the 2015 State election electors had up until the day before polling day to enrol for their current address. The Australian Electoral Commission (AEC) provided assistance with the processing of these enrolments and the production of roll data on the eye of the election.

Nominations for candidates closed on Tuesday 13 January 2015. Unlike federal elections (where a 24 hour processing period is allowed after the close of nominations), at a State election the Commission's Returning Officers are required to conduct the draw for ballot paper positions immediately.

Electors unable to attend a polling booth on polling day had the option of voting beforehand at a pre-poll centre (which for this election commenced on Monday 19 January 2015). Once the ballot paper draw was completed, the Commission had to begin printing ballot papers immediately in order to meet this deadline.

PART 2: CONDUCT OF THE ELECTION

Polling day for the 2015 election was Saturday 31 January 2015, 26 days after the issue of the writ. Although the elector's involvement ceased at that point, electoral officials were required to continue counting votes for a period of 10 days after polling day to allow for the return of postal votes, as well as conducting a full preference count. Results in a number of electorates could not be declared until a full preference count was concluded. The result of the General election was formally communicated to the Governor on Monday 16 February 2015.

Polling day	8.00am - 6:00pm Saturday 31 January
Cut-off for return of postal ballot papers	6:00pm Tuesday 10 February
Deadline return writ	Monday 23 February

Election costs

The Commission receives a budget appropriation for the conduct of State elections. The overall cost of the 2015 election was \$24.075 million compared with an initial estimate of \$19.859 million. The expenditure was higher than anticipated due to the pilot of electronic certified lists, the timing of polling day, additional compliance costs resulting from the Keelty report and legislative reform and changes that were made to internal processes (e.g. Proof of Identity training). A full outline of the Commission's election expenditure for the State general election is set out in the following table.

Item	Item Actual expenditure as at 30 June 2015
Staff & Related Payments	\$7,470,115
Pre-poll Voting	\$322,683
Scanning Operations	\$111,913
Electronic Certified Lists	\$2,247,106
Call Centre	\$531,687
Postal Services	\$934,570
Returning Officer Costs	\$4,358,447
Media/Advertising Campaigns	\$891,252
Election Operating Costs	\$4,577,851
Printing	\$1,476,576
Courier Costs	\$715,979
Training	\$436,763
TOTAL	\$24,074,942

In addition to operational costs, the cost of election funding for political parties and candidates was \$14.056 million (\$11.056 million in election funding claims and \$3 million in policy development payments).

PART 2: CONDUCT OF THE ELECTION

Communications strategy

As in the 2012 election, a Voter Information letter was again sent to each enrolled elector advising them of their obligation to vote, the electoral district they were enrolled in, their voting options and the location of polling booths in their area. The letter incorporated a small tear off slip with a unique number and barcode for each elector, making it quicker and easier to mark them off the electoral roll and issue the correct ballot paper. At polling booths and pre-poll centres equipped with electronic certified lists, the barcode on the letter was scanned and the elector's identity verified prior to the issue of a ballot paper. The letter also served a dual purpose of being one of the acceptable forms of proof of identity legislated prior to the election.

In addition, the Commission implemented a multi-faceted communications strategy for the 2015 State general election. Communication included the "Let's hear it Queensland" advertising campaign, which was part of a larger public awareness initiative, and a media relations program. Advertising included traditional media such as television, radio and print media and also incorporated an innovative digital and social media component for the first time in a Queensland election. The Commission proactively issued media releases around key dates in the electoral cycle, and Commission staff were available for media interviews upon request.

Elector enquiries

At each election the Commission receives a huge volume of enquiries from members of the public, typically wishing to check their enrolment details, voting options or the location of polling booths in their electoral district. For this election, the Commission's call centre to handle such enquiries was located and managed in-house (a considerable saving compared with 2012 when it was outsourced). Casual enquiry staff were engaged and received election-specific training, with permanent staff responding to more complex enquiries where necessary.

The number of telephone calls decreased substantially to 83,094 in 2015 compared with approximately 200,000 for the 2012 State election. The reduction in calls is attributed to a shorter period of call centre operation (5 weeks for the 2015 election compared with nine weeks in 2012 which covered both the State and local government elections).

The Commission's website contained a description and maps of electorate boundaries, as well as a portal which allowed individual electors to check their enrolment status. The website also contained:

- The election timetable;
- An explanation of Optional Preferential Voting;
- Google maps showing polling booth locations (including disability access);
- Information on alternative forms of voting;
- Information for prospective candidates;
- Names of candidates;
- · Employment opportunities; and
- Election results.

Proof of Identity

The concept of requiring electors to provide a proof of identity prior to voting was provided in the *Electoral Reform Amendment Act 2014* and assented to on 28 May 2014.

Acceptable forms of proof of identity included:

- A voter information letter issued by the Electoral Commission of Queensland;
- · A letter from the Australian Electoral Commission evidencing electoral enrolment;
- A current driver licence;
- A current Australian passport;
- A recent account or notice issued by a local government or a public utility provider;
- An identification card issued by the Commonwealth or a State as evidence of the person's entitlement to a financial benefit;
- An adult proof of age card issued by the State;
- A recent account statement issued by a carriage service as defined under the Telecommunication Act 1997 (Cth);
- A recent account statement, current account card or current credit card issued by a financial institution; and
- A recent notice of assessment issued under the Income *Tax Assessment Act 1997 (Cth)*.

Voting

The *Electoral Act 1992* allows voting to take place in a number of different ways, depending upon electors' particular circumstances – where they live, their state of health, whether they are working or travelling on polling day, their religious beliefs, and so on.

The following table sets out the number and percentages of electors who voted in different categories.

Vote Category	Count	Total Votes (%)
Ordinary	1,699,767	63.43%
Postal	244,442	9.12%
Pre-poll	526,296	19.64%
Absent	159,278	5.94%
Electoral Visit	960	0.04%
Polling Day Declarations	11,458	0.43%
Declared Institution	21,484	0.80%
Uncertain Identity	16,189	0.60%
TOTAL VOTES	2,679,874	

PART 2: CONDUCT OF THE ELECTION

Voting at polling booths

A total of 1,671 polling booths were in operation across Queensland on polling day, from 8.00am until 6.00pm. As shown in the table above, a total of 1,870,503 votes were cast on polling day, or 69.8% of all votes cast in the election.

Assistance with voting was available from polling staff for anyone who requested it, such as blind and vision impaired electors or people with writing difficulties. Electors were also entitled to be accompanied by an interpreter or to seek assistance from a friend or family member.

In addition, the Electoral Commission trialled the use of unassisted kiosk voting terminals (eAssist) at the 8 All District Centres and at Vision Australia headquarters at Coorparoo. A total of 134 votes were recorded across the 9 deployed terminals however 4 of the sites recorded 0 votes.

Postal voting

For the 2015 Queensland State general election, the Central Postal Voting (CPV) project mailed a total of 306,064 postal votes. These votes were comprised of electors who applied online (103,543); through the voter's help line (19,228); or completed a paper application form (183,293).

The total of 244,442 electors who voted by post represented an increase of 15.51% on the 2012 State election total of 211,619 electors.

Special Postal Voters

The Commission maintains a Register of Special Postal Voters (silent voters or electors in remote areas) to whom ballot papers are sent automatically as soon as they are available. 33,199 electors used this service which was an increase of over 4,500 from 2012 or 13.84%.

Blind & Low Vision Voting (BLV)

During 2014, the *Electoral Act 1992* was amended to provide electors who are unable to vote without assistance because of impairment, the ability to cast an electronically assisted vote. As a result, a Blind and Low Vision telephone voting system was developed to provide a high quality, confidential option of voting for electors who are visually impaired.

Electors were able to call the Telephone Voting registration call centre and register their interest in voting by phone nominating a 6 digit PIN number of their choosing. The Blind and Low Vision telephone voting system generated a secret registration number that was sent to the elector.

At a later time, the elector could ring the Telephone voting hotline call centre providing both the registration and pin numbers and their voting preferences. Votes were recorded strictly in accordance with the elector's instructions and were witnessed by an independent person.

Secrecy of the vote was maintained through the segregation of the registration and vote taking process with 403 electors using this service.

An independent audit was conducted both prior to and following the election to verify the integrity of the system.

Pre-polling votes

Pre-poll voting is similar to polling day voting in that the elector is required to physically attend a polling centre. Electors were free to vote early if they wished and for the most part could do so as an ordinary vote at the established 183 pre-poll voting centres (ADCs, Returning Officer's offices, Magistrates Courts and QGAP offices). A total of 526,296 electors (19.64% of the total vote) voted in this way, compared with 245,247 in the 2012 election. The 114.6% increase reflects an ever-increasing trend for electors to vote early.

Declared Institutions and Electoral Visitor voting

For electoral events the Commission arranges for certain institutions, such as nursing homes and aged care facilities, to be declared mobile polling booths. Residents of these institutions find it difficult, because of infirmity, to attend a polling booth on polling day. Electoral officials visit the institutions at a pre-arranged time leading up to 6.00pm on polling day and issue votes to electors. Other electors who, because of illness or disability, have difficulty attending a polling booth on polling day, may apply for an electoral visit vote. Electoral officials made arrangements to visit residences before 6.00pm on polling day to ensure electors could cast a vote, with candidates advised of the times and places of visits to enable them to have scrutineers present. Queensland is the only jurisdiction in Australia to offer home electoral visits.

For the 2015 election, a total of 21,484 votes (0.80% of the total vote) were issued at 586 declared institutions and a further 960 electoral visitor votes (0.04%) were recorded.

Remote polling

The conduct of remote polling has always been a challenge. The Commission deploys a combination of aircraft, boats and four wheel drives to ensure that people in remote areas are able to vote. For the 2015 election, five teams of polling officials visited 20 communities in the Torres Strait and the Gulf of Carpentaria, taking votes from 2,055 electors. Mobile polling occurred as follows:

Badu Island	Boigu Island	Coconut Island
Darnley Island	Dauan Island	Hammond Island
Injinoo	Kubin (Moa Island)	Mapoon
Maubiag Island	Murray (Mer) Island	New Mapoon
Saibai Island	Seisia	St Pauls (Moa Island)
Stephen Island	Umagico	Warraber Island
Yam Island	Yorke Island	

PART 2: CONDUCT OF THE ELECTION

Non-Voting Process

It is an offence to fail, without a valid and sufficient reason, to vote at an election.

As a result, and in accordance with provisions contained within the *Electoral Act 1992* the Commission conducted a non-voter process following the conclusion of the 2015 Queensland State general election. A reconciliation of certified lists with the 2015 Queensland State general election electoral roll identified 174,941 electors who appeared to have failed to vote. Consequently, each elector was sent an 'Apparent Failure to Vote Notice'.

100,126 electors either failed to respond to the 'Apparent Failure to Vote Notice', or provided an insufficient response to finalise the matter, and were subsequently sent an 'Infringement Notice'. 75,139 matters were later referred to the State Penalties Enforcement Registry (SPER).

To date, approximately \$1.4m has been collected in fines.

PART 3

ELECTORAL INNOVATION

Electoral innovation

The Commission put in place a number of organisational and technological innovations for the 2015 State general election.

Enrolment and voting up to polling day

At previous State elections, persons only had up to the official Close of Rolls date to enrol or to effect changes to the address they had registered on the roll. Under legislative amendments enacted in 2011, electors are now given a second opportunity. They can lawfully enrol, or update their enrolled address, at any stage up to and including the day before polling day.

While this is beneficial for the electors concerned and increases participation, it does pose some administrative challenges for the Commission. Between 10 January 2015 (the 'official' roll close) and 30 January 2015, a further 69,678 enrolment transactions were required to be processed, 22,416 first time enrolments and 47,262 notified changes of address. Details of the enrolments were progressively notified to the 89 Returning Officers to enable the elector's vote to be admitted to the count.

The Australian Electoral Commission provided valuable assistance in the processing of enrolments during this period and the provision of updated roll data the night before polling day.

Funding and disclosure

A number of reforms to the funding and disclosure provisions also came into effect for the first time in the 2015 State general election. The reforms changed how election funding was administered and the requirements for disclosing electoral donations.

Changes were made to the disclosure requirements in place for 2015 that differed from the requirements at the previous State general election. Candidates and third parties were required to disclose electoral expenditure incurred where the amount incurred was above the gift threshold of \$12,800; previously that threshold was \$1,000. The same change in the threshold for disclosure was also applicable to gifts made to candidates and was applicable to disclosures required by candidates and by third parties.

Changes were also made to the election funding provisions for registered political parties and candidates. The threshold to establish an entitlement to election funding was increased from 4% of formal first preference votes to 6%.

Previously funding was paid as a percentage of a claimant's incurred electoral expenditure on a sliding scale up to a capped maximum expenditure. For this election funding was paid as a full reimbursement of a claimant's electoral expenditure up to a maximum entitlement, where that maximum was calculated on a 'dollars per vote' basis. Candidates were entitled to claim up to \$1.495 per vote while for registered political parties the amount was \$2.991 per vote.

PART 3: ELECTORAL INNOVATION

Electronic Certified Lists

The 2015 Queensland State general election piloted the use of Electronic Certified Lists (ECLs) in the eight All District Centres across Queensland and in all polling booths in South East Queensland. 788,729 marks were captured by the ECLs: 209,043 marks at pre-poll and 579,686 marks on polling day.

Overall, ECLs were considered easy to use, providing improvements in the accuracy of marking off the correct elector and issuing the correct ballot paper in a short timeframe. Many positive comments were received from electors regarding the ease of voting, the absence of queues at booths and an acknowledgement that the Commission were delivering a more modernised approach to voting rather than with paper certified lists. A number of Returning Officers also commented on the ease of providing pre-poll voting in their offices while two Returning Officers on the fringe areas of Brisbane without ECL allocation were very disappointed at not being able to participate in this new initiative.

Two types of ECLs were piloted: non-printing ECLs and ballot-paper printing ECLs. During peak times, the non-printing ECLs were capable of marking off approximately five electors per minute and the ballot paper printing ECLs were capable of marking off approximately two electors per minute.

Monitoring the ECL performance during polling periods was facilitated by the ECLs reporting the marks in near real time. Trends became clear during both pre-poll and polling day.

Pre-poll generally showed a trend to higher participation in the morning and a steady decline to about 50% of the morning rate by close of polls. The notable exception was the Brisbane All District Centre which experienced much larger peaks during between 11am and 1pm.

Polling day showed a clear peak at 8am to 9am followed by a steady fall to about 20% of the peak rate for the final hour of polling.

eAssist Voting System

The eAssist voting system was developed for electors who require assistance to vote, but in particular, electors with visual impairment. The eAssist software facilitates an independent and secret vote by prompting users to issue commands through a custom-made keypad. The headphones provide the platform for audio prompts which guide the user through the eAssist voting process.

eAssist was launched at the 2014 Stafford by-election and was based at three locations and users demonstrated the robustness of the software. For the 2015 Queensland State general election, eAssist was available at the eight All District Centres and Vision Australia's Queensland head office in Coorparoo.

In total, 134 eAssist votes were cast with the vast majority received at the Vision Australia Coorparoo location. Feedback received from electors as positive, with a number commenting that

they were impressed with eAssist and this experience had been their first unassisted, independent vote.

Central Postal Voting

For the 2015 Queensland State general election, the Central Postal Voting (CPV) project mailed a total of 306,064 postal votes. These votes were comprised of electors who applied online (103,543); through the voter's help line (19,228); or completed a paper application form (183,293). Not included in this total were the 11,662 duplicate applications received and processed by CPV. 244,442 postal votes were returned for processing.

CPV was established to streamline postal voting processes to expedite a 24 hour turnaround, that is, to have postal vote applications processed, printed and lodged with Australia Post within a 24 hour period from receipt. With the exception of postal vote applications received before the close of candidate nominations, time objectives were met.

Located on the ground floor of 80 Ann Street, Brisbane, CPV employed up to 80 temporary staff to assist Commission staff over a five week period. Temporary staff were engaged on a 'as needs basis', fluctuating as the workload increased or decreased.

A number of changes to the postal voting process were implemented for the State election, such as:

- The requirement to sign the postal vote application was removed, promoting online and phone lodgement.
- Security questions were introduced to facilitate the scrutiny between postal votes and unsigned postal vote applications.
- Two suppliers were engaged to conduct daily: printing of postal vote envelopes; filling of the
 envelopes with the ballot paper for the elector's State District; and lodge the filled envelope
 with Australia Post.
- All postal votes were returned to CPV for scrutiny and either accepted to the count or rejected.
 All accepted envelopes, still sealed, were distributed to the relevant Returning Officer for counting.

Overall, the Commission received positive feedback from electors and Returning Officers complementing the accuracy and timeliness achieved through the CPV project postal voting

PART 3: ELECTORAL INNOVATION

process.

All-District Centre Expansion

Following the success of the initial establishment of five All District Centres in South-East Queensland for the 2012 State general election, the Electoral Commission increased the number of centres for the 2015 election to eight with three of the centres being established outside of the South-East corner.

Centres were established at the following locations:

Location	Address	Votes Taken
Brisbane CBD	Brisbane City Hall, Sandgate Room 64 Adelaide St, Brisbane	24,485
Maroochydore	Millwell Road Community Centre 11 Millwell Rd, Maroochydore	15,756

Electronically Assisted Voting - Blind Low Vision (BLV) Telephone Voting

Blind Low Vision (BLV) telephone voting was developed for persons who live with blindness or low vision and who require assistance to vote. Provisions regarding electronically assisted voting are contained under Sections 121A through to 121F of the *Electoral Act 1992*. The system was designed to facilitate an independent vote whilst at the same time ensuring the secrecy of the vote.

In accordance with Section 121C of the *Electoral Act 1992*, an external auditor was engaged to audit the information technology used under the procedures for electronically assisted voting prior to the service going live. A further external audit was required following the completion of the election.

The system was developed into a two-step process: Registration and Vote Taking.

Registration was needed for electors to express their interest in voting via telephone. During this process the elector had to make the declaration that they were blind or had low vision. The elector nominated a 6 digit PIN number and would then be provided a system generated Registration number by their preferred method (either text, email, letter or phone call). This information was later used in the Vote Taking process. The registration call centre was operational from the close of rolls to the Friday before polling day.

Once the elector had received the registration number, they were able to call the vote taking call centre to cast their vote. During the Vote Taking process, it was imperative that the elector's identity remain secret. This was ensured by call centre operators prompting the caller not to disclose any personal information that would allow them to be identified. The registration and PIN number were entered into the BLV system, which notified the call centre operator which district ballot papers to retrieve.

The ballot paper was then marked in accordance with the caller's instructions, witnessed by an independent person, and placed in a conveyance envelope for deposit into the ballot box.

Once the elector's vote had been recorded and placed in the ballot box the voter was marked off the roll as voted.

The Vote Taking call centre was available to electors from the start of pre-poll to the close of polling booths on polling day.

Upon the close of polling at 6pm on polling day, the conveyance envelopes were reconciled with the ballot papers used and sent to the Returning Officer for counting.

During BLV telephone voting 433 electors registered to vote via telephone however as at 6pm polling day only 403 electors had voted.

PART 4

IMPROVEMENT OPPORTUNITIES

Improvement opportunities

Nominations - draw for ballot paper position

The *Electoral Act 1992* requires the announcement of candidates for election as soon as practicable after noon on the cut-off day for nominations. The draw for positions is currently carried out at approximately 3.00pm on the day of nomination. The short timeframe available for verifying candidate nominations increases the likelihood of an error being made. The Commission notes that for federal elections an additional day is allowed and would support an identical provision applying to Queensland State elections, especially in the light of the number of candidates (and sometimes parties) who leave it until the very last minute to lodge nominations.

Nominations - payment of nomination fee

The *Local Government Electoral Act 2011* provides that nomination fees may now be paid using Electronic Funds Transfer (EFT) in addition to normal cash and bank cheque payments however the *Electoral Act 1992* currently has no such EFT provision.

At every election there are candidates or parties that experience difficulty with the payment of the nomination fee. The Commission would support legislative amendments to the *Electoral Act* 1992 to accept candidate nomination fees by electronic funds transfer in addition to the current provisions.

Returning Officer training

Without a firm date for the State election, the Electoral Commission commenced initial face to face training for Returning Officers in May 2014, with refresher training planned for December 2014.

Feedback from Returning Officers has indicated that, whilst there was sufficient training on the computer systems and applications used by the Commission, it would be beneficial to devote more time to other operational processes. The Commission acknowledges the merit in this proposal and will place added emphasis on operational training in future. Following the State election, the Commission has decided to proceed with the introduction of an online learning management system training for all electoral staff for future elections with the initial roll-out targeting the local government elections in 2016.

Postal voting

One of the biggest challenges facing the Commission is the significant increase in postal charges that will apply from 1 January 2016 and the reduced delivery schedules for customers. The Commission is also aware of the heavy reliance placed on the reliability of postal delivery services especially in regional and remote areas of Queensland. After the election, instances came to light of electors who did not receive their ballot paper material until after voting had concluded, even though it had been despatched up to three weeks prior to polling day. While the number of electors who experienced difficulties was very small in relation to the total number of electors enrolled, it remains unacceptable that the vote of an enrolled elector may not be able to be counted because of such delays.

PART 4: IMPROVEMENT OPPORTUNITIES

Current legislation also allows an elector to apply for a postal vote up until 6.00pm on the Wednesday before polling day, when the reality is that few if any electors are likely to receive their ballot material in time to vote if they leave it late to apply.

One possible solution to impending increased postal charges and reduced service delivery by Australia Post would be to allow postal voters in more remote areas to vote via the internet, as is now the case in New South Wales elections. This voting innovation will be fully considered in conjunction with the replacement of the Commission's current Election Management System.

Voting via the internet/telephone

The New South Wales Electoral Commission first introduced iVote for the NSW State election in March 2011. Following the successful take-up of the system, iVote has been used for all subsequent NSW State elections and by-elections since its introduction. It is important to note however that iVote is restricted to those electors who: are blind or have low vision; have a disability; live more than a specified number of kilometres from the nearest polling booth; or are overseas during the pre-poll period and on polling day.

Although the Commission has successfully implemented initiatives targeting electors with blind or low vision, the Commission supports the implementation and pilot of a similar system to the iVote model. An online voting system would facilitate independent, secret vote for blind and low vision electors who are currently disadvantaged by remoteness, such as distance voters.

Overseas and interstate electors

At each state general election the Commission establishes pre-poll voting facilities at overseas trade commissions and interstate electoral offices at considerable cost.

The Commission considers that internet voting is a viable option for electors in remote areas, or who happen to be interstate or overseas, particularly where those electors may otherwise be disenfranchised. This option will be fully considered in conjunction with the replacement of the Commission's current Electoral Management System.

For the 2015 State general election the Commission established polling facilities in Shanghai, Hong Kong, Jakarta, Wellington, Port Moresby, Singapore, Taipei, London and Houston.

Overseas Polling Facility	Total Votes
Shanghai - China	64
Hong Kong	336
Jakarta - Indonesia	29
Wellington - New Zealand	44
Port Moresby - Papua New Guinea	195

PART 4: IMPROVEMENT OPPORTUNITIES

TOTAL VOTES	1,904
Houston - United State of America	4
London - United Kingdom	845
Taiwan (Taipei)	266
Singapore	121

Although the centres did allow 1,904 electors to participate in the election, the logistics of arranging these centres is problematic (e.g. the four votes taken in Houston were not returned to the Commission until after the closing date for receipt of postal votes and so could not be included in the counting process).

Electoral District First Preference Votes and Distribution of Preferences

Election Results

The 2015 Statistical Returns for Queensland's 89 electoral districts are presented alphabetically, starting with the District of Albert and finishing at the District of Yeerongpilly.

District tables display the first preference count of ordinary and declaration votes in absolute (number) and relative (%) terms. Ordinary votes are recorded by candidate by polling booth. Declaration and pre-poll votes (postal, unenrolled, pre-poll, absent, electoral visit, declared institution and remote area mobile polling) are recorded by candidate. Total formal, informal and total votes are also shown for each booth and each category of declaration and pre-poll votes.

The results of distributions of preferences are also shown for the electoral districts which are contested by more than two candidates. Both district tables are read across the page.

Sample: Electoral District of Capalaba

Electoral District of Capalaba First Preference Votes Polled for each Candidate at each Polling Booth

Candidates are identified by registered party and are listed across the table in ballot paper order. Candidate vote percentages are calculated to the base of total formal votes. The remaining percentage columns are calculated to the base of total votes.

Declaration and pre-poll votes are displayed at district, not polling booth level.

Candidate(s) are listed down the first column in order of exclusion. The Candidate vote % column is calculated to the base of votes remaining in the count. The Exhausted % column is calculated to the base of total formal votes.

Two Candidate Preferred Results After Preferences By Booth

Election Results

The 2015 Statistical Returns for Queensland's 89 electoral districts are presented alphabetically, starting with the District of Albert and finishing at the District of Yeerongpilly.

The two candidate preferred results count after the preferences by booth in a contest is defined as the final count of votes for the two remaining candidates in a contest after the successive exclusion and distribution of preferences from ballot papers for other candidates in the contest. The report displays the two candidates preferred votes and percentages for each polling booth and declaration vote type for the electoral district.

Additionally, a total exhausted vote is displayed, representing the formal ballot papers that were included at the count of first preferences, but where further preferences on those ballot papers exhausted before reaching one of the final two candidates in the contest. The percentage of two-candidate preferred vote shown on results with exhausted preferences is calculated as a percentage of votes remaining in the count, that is formal votes minus exhausted ballots, not as a percentage of the formal vote.

Sample: Electoral District of Gaven

2015 State General Election
Two Candidate Preferred Results After Preferences By Booth

Candidates are identified by registered party and are listed across the table. Candidate vote percentages are calculated to the base of total non-exhausted formal votes.

Votes are displayed at polling booth and declaration voting type level.

Guide to District Profiles

District Profile pages provide additional electoral District information: geographical data, summary statistics and historical data. The comparisons shown in this section are based on State General elections only. They do not take into consideration any by-elections which may have been conducted between these events.

Sample: Albert Electoral District

Seat Status:

Classifies districts into one of three categories, based on results after the distribution of preferences:

- Safe = above 60% of the vote;
- Fairly Safe = between 56.01% and 59.99% of the vote; and
- Marginal = between 50.00% and 56.00% of the vote.

Glossary of Terms and Abbreviations

ADE:	Average district enrolment of electors gazetted monthly, calculated by dividing the total state-wide enrolment by eighty-nine.
AEC:	Australian Electoral Commission.
CPV:	Compulsory preferential voting method used for federal House of Representatives elections. Electors are obliged to express preferences for as many candidates as appear on the ballot paper.
DECLARATION VOTES:	Sometimes called 'Special' or 'Sectional' votes. Include absent, postal, pre-poll in person, unenrolled and uncertain identity votes. Electoral visit votes are regarded as 'Ordinary Votes'.
DISCLOSURE:	Introduced for the first time at the 1995 Queensland State General Election. Financial disclosure provisions require half yearly returns by registered political parties, associated entities and donors to registered political parties. Returns of gifts received, loans received and election expenditure from candidates and others who incur expenditure for political purposes during an election campaign must be lodged following the election.
EA 1992:	The (Queensland) Electoral Act 1992.
EARC:	The Electoral and Administrative Review Commission (1990-1993).
ECQ:	The Electoral Commission of Queensland.
EXCLUDED CANDIDATES:	During the scrutiny under CPV and OPV the candidate with the least number of votes at each count of preferences is excluded (removed) from the count and his/her votes are then distributed to remaining candidates.
EXHAUSTED VOTES:	These are the votes of excluded candidates which show only one preference or a partial distribution of preferences (eg. 1, 2, 3 for example, in a district where say 5 candidates stood). These votes are counted to the preference indicated whereupon they 'exhaust' and go no further.
FULL DISTRIBUTION OF PREFERENCES:	The results after preferences have been allocated to the last two candidates remaining in the count (often beyond the point where a winner has been determined).
IND:	Abbreviation used on occasions for Independents.
INDEPENDENT:	A candidate or parliamentarian who is not endorsed by a registered political party.
INFORMAL VOTES:	Votes not admitted to the count because, for example, the ballot paper was left blank, was incorrectly marked, or the voter's intention was unclear.
LIVE VOTES:	Votes remaining in count.
MP:	Abbreviation for Member of Parliament to the Legislative Assembly for Queensland.

OPV:	Optional preferential voting method. Electors may express preferences for one, some or all candidates on the ballot paper.
ORDINARY VOTES:	Votes cast on polling day within the district in which the elector is enrolled.
PRIMARY VOTES:	Also known as 'primaries', these are the formal first preference votes obtained by any candidate. Where no candidate has an absolute majority of primary votes, the seat is determined after (2 nd , 3 rd , 4 th) preferences are distributed.
PREFERENCE VOTES:	Term sometimes applied to votes expressed in order of preference after a primary (first preference), but technically the term refers to all votes recorded including the first, second, third and later preferences.
PUBLIC FUNDING:	Introduced at the 1995 Queensland State General Election. Provisions allow for the reimbursement of election campaign costs to eligible parties and independents. Reimbursement is calculated on sliding scales as a percentage of eligible capped electoral expenditure. More than four per cent of the formal first preference vote is required to claim public funding.
QUOTA:	Calculated at the start of a redistribution, this is the average number of electors determined by dividing the total number of electors by the number of districts into which the State is to be divided for representation purposes.
POLITICAL PARTY ABBREVIATIONS	LNP – Liberal National Party; ALP – Australian Labor Party; GRN – The Greens; FFP – Family First Party; ONP – One Nation; DSQ – Daylight Saving for South East Queensland; KAP - Katter's Australian Party. (Abbreviations are by ECQ in complex tables for statistical purposes in lieu of the Registered Party Abbreviation)
RO:	Abbreviation for Returning Officer for a State electoral district.
REDISTRIBUTION:	The redrawing of the electoral map involving changes in electoral district boundaries.
REGISTERED POLITICAL PARTY:	A political party registered under the <i>Electoral Act 1992</i> for State electoral purposes. The Commonwealth maintains its own register.
SEAT STATUS:	Classifies districts into one of three categories, based on results after the distribution of preferences: • Safe = above 60% of the vote; • Fairly Safe = between 56.01% and 59.99% of the vote; and • Marginal = between 50.00% and 56.00% of the vote.
TURNOUT:	Also known as the participation rate for the election (ie the total number of voters expressed as a percentage of the total number of electors on the roll).
UNICAMERAL:	A legislature, like Queensland's, with only one chamber or house.
WEIGHTAGE:	Five State electoral districts in excess of 100,000 square kilometres are 'weighted' to the extent of the equivalent of 2% of their land area. The weightage formula adds 28,765 to the roll in the districts of Cook, Dalrymple, Gregory, Mount Isa and Warrego.
WRIT:	Instructions from the Governor to the Electoral Commissioner regarding the conduct of an election.

1.0 Introduction

- 1.1 The aim of Electoral Commission of Queensland's (ECQ) ballot paper survey is to provide statistical information about ballot papers cast at the 2015 Queensland State General Election. As part of the survey conducted by ECQ, a statistical analysis of the ballot papers for the immediate past State election, held on the 31 January 2015, was conducted.
- **1.2** A total of 11 electoral districts were selected for this survey. Surveys following the 2001, 2004, 2006, 2009 and 2012 elections have previously been undertaken.
- 1.3 The Commission has examined all ballot papers for the selected districts and provided comparative data where relevant. There were no changes in electoral boundaries between 2012 and 2015.
- 1.4 For the 2015 election the Commission expanded the roll out of All District Centres. These centres allowed voters from anywhere in the State to cast an ordinary vote for their district before and on polling day. A total of 130,702 pre-poll votes and 18,689 polling day votes were cast at the eight polling places. This represents 24.83% of all pre-poll votes (526,296), 0.99% polling day votes (1,886,692) and a total of 5.57% votes cast in Queensland (2,679,874).

Table (1) Summary of All District Centres for QLD

Location	Pre-poll votes	Polling Day votes	Total votes
Brisbane CBD	24,474	4,341	28,815
Bundaberg	13,514	491	14,005
Burleigh	15,035	1,643	16,678
Cairns	24,816	2,899	27,715
Mackay	12,667	1,233	13,900

Southport	11,357	2,916	14,273
Total	130,702	18,689	149,391

1.5 The data in this report should be seen as a basis for further research. The data will also be shared with other electoral authorities in assisting developing relevant programs.

Survey methodology

- 1.6 The following table identifies the districts used for the survey and relevant data. It should be noted that the districts represent all three geographical classifications used by ECQ (Urban, Provincial and Rural). The geographic classifications are based on specific demographic criteria. Urban districts are situated in large cities consisting of well-established built-up suburbs. Provincial districts are areas outside large cities and contain large areas of recent suburban expansion. Rural districts are outside built up areas and do not contain a majority of enrolment in major provincial cities. It should also be noted that the total number of polling places for each district include the All District Centre polling places (pre-poll and polling day), Blind and Low Vision (pre-poll and polling day) and eAssist.
- **1.7** A combined total of 57 candidates contested the districts (four urban, four provincial and three rural) represented in the sample.
- 1.8 Table (2) identifies each district, the geographical classification, the number of 'static polling places', the total enrolment for the district at the close of roll, the turnout expressed as a percentage of enrolment and the number of candidates for each district. The informal vote is expressed as a percentage of the total vote.

1.9 ECQ retains ballot papers, sorted by polling place from the election. Informal votes and formal votes are maintained separately. The ballot papers have been sorted by polling place level and aggregated to district and geographical levels. Table (3) summarises the ballot papers used in the statistical survey by type. A total of 326,477 ballot papers were used in the survey.

2.0 Enrolment

- **2.1** Any election requires three critical components:
 - (a) an electoral system,
 - (b) registered voters, and
 - (c) candidates.
- 2.2 The electoral roll of registered voters is administered by the Australian Electoral Commission under a Joint Roll Arrangement between the State and Commonwealth governments.
- 2.3 As Queensland's population increases, the number of registered voters for each election will increase. Table (4) lists the selected Districts, enrolment and turnout for the 2009, 2012 and 2015 elections. The State total is included at the bottom of the table.

Table (4) Enrolment and voter turnout

- 2.5 A total of 234,301 electors were added to the Queensland electoral roll since the last State

PART 6: BALLOT PAPER SURVEY

- General Election in 2012. In terms of overall turnout there were 180,111 more votes cast at the 2015 election compared with 2012.
- 2.6 Table (5) identifies the number of candidates for the 2006, 2009, 2012 and 2015 elections. There was an overall increase of 3 candidates in the 2015 election compared to the 2012 election. The number of female candidates increased by 18. The number of male candidates decreased by 15.

Table (5) Number of candidates at elections

Election	Male	Female	Total

2015	303	130	433

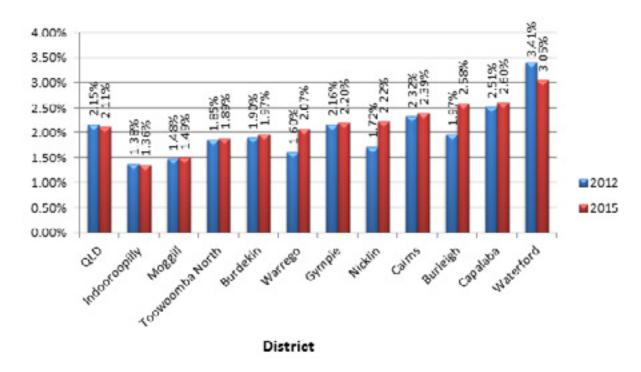

3.0 Informal voting

- 3.1 A total of 2,679,874 votes were cast at the 2015 State election. The informal votes total 56,431 or 2.11% of the total votes cast. This is a change of -0.04 percentage points from the previous election (2012 resulted in 2.15% informal votes being cast).
- In the election as a whole the level of informality ranged from 3.51% (Woodridge) to 1.03% (Ashgrove). In relation to the districts selected for the survey, the range was 3.05% (Waterford) to 1.36% (Indooroopilly).
- Table (6) identifies the most recent election in each State and the percentage of informal votes. The elections are in order of informality. Queensland informality (2.11%) is the lowest amongst all elections.

- 3.4 Informal ballot papers do not count towards any candidate, and are counted separately. For survey purposes, ECQ sorts and categorises informal ballot papers into several categories according to the reason for their informality.
- 3.5 In Queensland the system of 'optional preferential' voting allows the voter to preference only one candidate, or alternatively, as many as the voter wishes. The following graph represents the informal votes for the 2015 election and the 2012 election in the selected districts.

Graph (1) Percentage of informal vote by District

3.6 The rate of informal voting is in ascending order.

Types of informal voting

- 3.7 Informal votes were classified into the following seven categories:
 - (1) Writing
 - (2) Blanks
 - (3) Marks and scribbles
 - (4) Ticks or crosses
 - (5) Defective numbering
 - (6) Writing identifying the elector
 - (7) Other
- 3.8 The categories are self-explanatory. The category 'other' contains ballot papers that contain a combination of the other six categories, e.g. defective numbering and writing and ticks or crosses. Table (7) identifies the district with the highest and lowest percentage of each category while Table (8) identifies each of the sample districts and the number and percentage of informal votes by category.

PART 6: BALLOT PAPER SURVEY

- 3.9 Blank ballot papers account for the highest proportion, making up 36.17% of all informal votes. This compared with 38.01% in 2012, a decrease of 1.84 percentage points.
- 3.10 The second highest category were those ballot papers that contained writing but no numbering. This type of vote represented 22.62% of the informal vote, compared with 24.51% in 2012, a decrease of 1.89 percentage points.
- **3.11** The third highest category of informal voting was those ballot papers identified as 'marks and scribbles'. This represents 21.31% of the informal vote compared with 17.87% from the last election, a decrease of 3.44 percentage points.
- 3.12 A total of 10.22% of ballot papers were identified as containing defective numbering. These ballot papers contained either more than one '1' or no first preference at all.
- **3.13** Table (7) ranks the highest and lowest district by informality category.

4.0 Optional Preferential Voting (OPV)

- 4.1 The OPV system requires the voter to place a '1' as the first preference and the voter may then mark preferences for other candidates or leave the ballot paper marked with a single '1'. Consequently, the voter may mark the ballot paper in three ways: a single primary preference, a partial preference, or a full preference (marking every square).
- 4.2 The introduction of OPV was a result of the Queensland Electoral and Administrative Review Commission in 1992. The total percentage of ballot papers marked with a'1' only was 55.52%.
- **4.3** A total of 3.26% expressed partial preference and 41.22% voted using full preferential.
- **4.4** Table (9) reflects those districts that rated the highest and lowest within the three categories of voting.

Table (9) Districts ranked by OPV category

Category	Highest ranked	Lowest ranked

5.0 Ordinary and extra-ordinary votes

This section compares the composition of ordinary votes cast at polling booths on Election Day with other vote types. 5.1

In the survey, a total of 63.65% of electors cast a vote at an ordinary polling booth compared with 71.04% in 2012. 5.2

A total of 29,404 ballot papers (9.01%) were postal (8.46% in 2012) and 67,762 ballot papers (20.76%) were from pre-poll (11.42% in 2012). Absent votes represent 5.79% of the total ballot papers (8.31% in 2012). 5.3

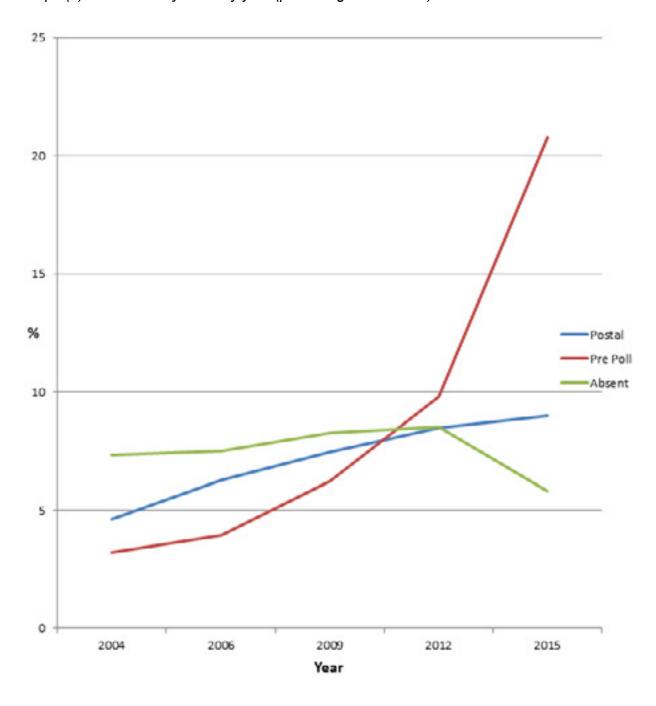

Table (12) identifies each of the sample districts, the informal votes by vote type and the percentage of total votes for each vote type. 5.4

6.0 Summary of findings

- This study surveyed 11 electoral districts consisting of 326,477 ballot papers.
- The All District Centres issued 149,391 ballot papers or 5.57% of the total ballot papers for the State.
- The total enrolled electors for the State was 2,981,145 with a turnout of 89.89%.
- The number of candidates increased from 430 in 2012 to 433 in 2015.
- The total informal vote for the State was 2.11%, a decrease of 0.04 percentage points from the previous election.
- The informal rate of 2.11% is the lowest informal rate amongst other States, Territories and the Commonwealth.
- The survey found that Indooroopilly has the lowest informal rate (1.36%) and Waterford has the highest (3.05%).
- When collating the informal rates for 2015, the district ranking was the same as in the 2012 election (Indooroopilly the lowest and Waterford the highest).
- Blank ballot papers constituted the highest informal category (36.17%) and writing on ballot papers was the second highest (22.62%).
