Submission text: I would like to comment on the current mess that was created with the very unfair vote that was conducted in 2013 when the people of the Rockhampton Region was not permitted to have their say and vote on the de-amalgamation of the Livingstone Shire from the Rockhampton Region. The area most affected was the suburbs of Glenlee, Glendale and Rockyview. When meeting with the people who live in this area they will state in detail the they are and always will be Rockhampton people not Yeppoon people. With some of the most common comments listed below. • Those that live in this area have voted 3 times to be moved back to Rockhampton • The Heat Map Data in the RRC submission gives overwhelming evidence these people live their lives in the Rockhampton Region • They believe that the Livingstone Shire has not invested in infrastructure in this area. With even the Livingstone Shire stating that they will only invest \$1.9M in the same period that Rockhampton Regional Council will invest \$31M in the area. That is a very clear indicator of Rockhampton Regional Council being the better choice for residents in those suburbs. • Many of the Residents have also raised concerns of the need to have a considered approach future land development instead of the current ad-hoc approach by Livingstone Shire. • Finally many of the residents have read the QTC financial assessment. And feel that both Councils remain financially viable with Livingstone Shire still showing it is in a stronger position than RRC even with the transfer of those suburbs to the Rockhampton Region. I urge your support to allow the good people of Glenlee, Glendale and Rockyview to become part of the Rockhampton Region.
