Submission text: At the end of the day it is a very simple situation to solve. These 3 suburbs belong to LSC and to have that changed, proper financial incentive needs to be put forward by the RRC. Everyone who has purchased in these 3 suburbs post 2014 was fully aware of the Council in which they belonged. Anyone who purchased prior may have been against the de-amalgamation, but were fairly out-voted. It can't be expected for the rates payers of LSC to wear the cost of the RRC claiming suburbs and income. Those living in Glenlee, Glendale and Rockyview may wish to pay less for rates, they would be silly not to, however this does not make their opinion any more valuable than that of others in the LSC. It is part of the LSC and the RRC needs to make an acceptable financial offer for any change to be considered. If it is as important to the RRC as they have stated, that shouldn't be such a ridiculous notion to entertain. Until such an offer is put forward I refuse to agree to the changes, though I can understand much of their argument as well.
