Figures provided on the first day includes data for any postal votes returned and accepted prior to this date.

Once postal ballot materials are returned and determined to be valid (elector enrolment details and declaration materials are scrutinised and confirmed), the ballot paper will be accepted and placed into a sealed ballot box ready for counting after the close of polls at 6pm on election day.

Postal ballots returned within the legislated period for the return of postal ballots (up to 10 days following Election Day) may be included in the scrutiny and count process after the cut-off date and the information will continue to be updated when that occurs.
