QUEENSLAND REDISTRIBUTION COMMISSION

PUBLIC SUGGESTIONS FOR THE STATE'S DISTRICT BOUNDARIES AND AN INVITATION FOR COMMENTS ON THE SUGGESTIONS

On Saturday, 25 June 2016, the Queensland Redistribution Commission (the Commission) invited public suggestions regarding the redistribution of the State's 93 electoral districts. 41 suggestions have been received.

All submissions received by the closing date for public suggestions are now available for inspection and without fee from the Commission's:

- **Office** Level 6, Forestry House, 160 Mary Street, Brisbane QLD 4000; or
- **Website** http://boundaries.ecq.qld.gov.au/

Comments on the suggestions will now be invited for a period of 21 days from Saturday, 6 August 2016. After reviewing these submissions, the Commission will develop its electoral boundary proposal. The Commission's proposed redistribution will then be made available for a further two stages of public comment.

Written submissions accompanied by maps and submitted electronically are preferred and can be lodged through:

- **Online From:**
  http://boundaries.ecq.qld.gov.au/

- **Post:**
  The Secretary
  Queensland Redistribution Commission
  GPO Box 1393
  BRISBANE QLD 4001

- **Personal Delivery:**
  Monday – Friday, 9:00am – 5:00pm

  The Secretary
  Electoral Commission Queensland
  Level 6, Forestry House
  160 Mary Street
  BRISBANE QLD 4000

Comments on the suggestions must be lodged with the Commission between Saturday, 6 August 2016 and 5.00pm Monday, 29 August 2016.

The Commission requests that anyone intending to make a submission, use the electoral enrolment statistics and maps provided on the Commission's website. Alternatively, you can contact the Commission on boundaries@ecq.qld.gov.au or 1300 881 665 to request information or to submit general enquiries.

The *Electoral Act 1992* (the Act) requires that all comments be made available for public perusal. If you lodge a suggestion, please note that all **submissions will be published in their entirety, including name and address details**. Submissions may be viewed at the Commission's office and on the website and will be available as soon as practicable after the closing time for public comment.

The Redistribution Process

In preparing its proposed redistribution the Commission is required to calculate a quota ("*the average number of enrolled electors"*) for each electoral district. To assist people lodging submissions, the Commission has calculated the quota for 93 electoral districts to be 32,204 electors, based on October 2015 enrolment data. This figure will be updated throughout the review process. The Act allows a maximum 10% variation above or below the quota.

Additional consideration is given to Queensland's regional and remote electoral districts that are often large in size, but fewer in electors than urban electorates. Electoral districts that exceed 100,000 km^2 in area, fall under the *"additional large district number"* (ALDN) provision.

This provision produces a notional sum of electors equal to 2% of the total area of the district and adds them to the number of actual electors to better meet the quota.

Example: Cook District (October 2015 enrolment figures):

Enrolment	Size ($km^{2)}$	Large District Number (2%)	Adjusted Enrolment
29,789	196,805	196,805 x 0.02 = 3,936 notional electors	29,789 + 3,936 = 33,725 electors

Subject to the electoral districts being within the accepted quota, the Commission is also required to give consideration to the following matters:

- community of interest (economic, social, regional or other) in the district;
- ways of communication and travel within the proposed district;
- the physical features of each proposed electoral district;
- the boundaries of the existing electoral districts; and
- projected population growth or decline in particular areas.

Section 46(3) of the Act gives the Commission the authority to consider and give weight to each of the aforementioned matters as it considers appropriate.

Taking into account the above criteria and after careful consideration of the suggestions and comments, the Commission will develop a set of proposed electoral district boundaries. The proposed determination will be announced in the Queensland Government Gazette and newspapers circulating throughout the State.

Following two further consultation periods after the release of the proposal, the Commission will then gazette its final determination.

The Chairperson
H.W.H. Botting
Queensland Redistribution Commission.

Sir/Madam.
I am concerned, and have been concerned for some time that the current boundaries encompassing the Gold Coast and Logan City Councils are far to expansive. These two areas are growing at a rate faster than the Councils can cope. Such items as maintenance to roads, parks and most importantly keeping up with urgently needed new infrastructure, is seriously lacking. The many new residential estates that have been and continue to be opened up are placing a massive strain on both Councils.

A massive redistribution of boundaries on the southern areas of Brisbane is needed to benefit the residents.

I wont profess to know how to manage this but would implore the QRC to have the experts look into these areas and act accordingly to alleviate the pressures on both Councils and residents alike.

Thank you.

Gerard A. Clough.

Re Suggestions on Boundries

I would like to Suggest. Jalgai West Area of 27,500 acres in Size. formly Division 2 of former Allora Shire prior to (Amalgation of Shires) The number 2 Division ~~wich~~ was Jalgai West was (former Allora Shire) (Lost both sitting members in 1995 - 2000. these members where never replaced.
So to look after Jalgai West had to be done. By (Unoffical Councilor) not elected But has had intrist of area at heart Jalgai West was orignaly part of Clifton Shire prior. To take off by Allora - Village Council in 1914 of Jalgai West, to get extra Ratepayers; To stop Allora Village Council, Bean takenover by State Gov of the day; So Allora pushed Clifton Council, to give Allora some of there Land Area - Ratepayers some of there Shire To stop Allora Bean taken over by State Gov

Now since Last Local Gov Election former Allora Shire has (no Local Gov member) Southern Downs Shire Council only Looks after former Number 1-3 & 4-5 Divisions of former Allora Shire) (Number 2 Division) is on West Side of Toowoomba — (Warwick Rail Line) this area has no Representation on S.D.C

(We need to be returned to orignal Clifton Council area & be serviced by them as originally where before take off. By now (non existing Allora Council)

Clifton Town is only 10 miles from my home, as for Boundry Rd between former Allora - Clifton Rd it is only 2½ mile, from my home Before I drive into former Clifton Shire - Clifton is the main town for Residence of Talgai West for all business & Medical Services when needed So give serious thaught at returning Talgai West area Back to Clifton as was in 1914

Introduction

To the members of the Queensland Redistribution Commission,

In preparing my submission for the redistribution of Queensland State Electoral Districts there are a number of different issues which I intend to bring to the attention of the Commission.

The first part of this document was prepared prior to the commencement of the 2016 redistribution; so identifies issues I wish to highlight relating to the 2008 redistribution.

Part 2 of this document lays down some standards and principles which I intend to apply in conjunction with the requirements of The Act.

Part 3 of this document contains my approach and proposed changes to Electoral Districts as well as the application of new and altered District names where applicable.

This submission / proposal is written as a narrative, which hopefully conveys to the reader the logic I have used to make my determinations and proposals.

This document should be read in conjunction with the Qld SA1 SED LGA Breakdown Excel document and the SA1 District Maps with my proposed new boundaries (as mailed to the QRC).

Though I am not currently a resident of Queensland, I did reside in the State for a time, living and working in the Cairns region. During that time I was fortunate enough to work and associate with many different people; from locals on the verge of retirement, sales reps that travelled out to the Gulf country, a Kuranda Market stallholder and more! It was a part of my life that I recall with great fondness.

Though this is the first electoral Redistribution conduced in Queensland using Statistical Areas (SA's) as opposed to Census Collection District's (CD's) a number of other State and Commonwealth Redistributions have been conducted using SA's over the past 4 years.

Those of us who have been making submissions to other State and Commonwealth Redistributions in an honorary capacity over some or all of those past 4 years, are - to some extent - more familiar with electoral Redistributions using SA's than the QRC may be.

The QRC should not be surprised to find that the level of detail provided in some of the submissions and proposals it receives are of high quality and detail, deserving serious consideration.

Part 1: The 2008 Redistribution, District and LGA analysis

Comment on the 2008 Redistribution

The first issue I wish to table relates to the last sentence on page 2254 of the Queensland Government Gazette - published Wednesday, 20 August, 2008 - which proposed an updated approach to the 'ways of communication' criterion. I have copied that sentence below for reference.

The 'ways of communication' now include widespread use of the internet, email and mobile phones, enabling electors to live further from their elected representative yet still to find it relatively easy to seek assistance when required.

I find this statement to be a very City-centric statement. It makes some assumptions about regional and remote parts of Queensland that may not necessarily apply in 2016, let alone back in 2008 when it was published.

It assumes that in the remote corners of western and south-western Queensland, as well as in the Gulf country, that internet connectivity and mobile phone coverage is not only readily available but reliable. It assumes that all electors who wish to contact their State representative have a mobile phone or an electronic device with internet access, the appropriate software installed and that these electors are competent users of this type of technology. Finally, it also assumes that peoples in the remote corners of western and south-western Queensland, as well as the Gulf area, are comfortable communicating with their elected member electronically rather than in person.

It is my belief that many electors – and perhaps more so older and rural electors – do not necessarily have access to, or are comfortable with using, electronic means of communications to the extent that this sentence assumes or implies. The old value of meeting your local representative face-to-face and shaking their hand is too precious a value to be simply discarded because technology has been developed to provide an alternative to it.

This sentence also comes across as a justification for increasing the size of the District of Mount Isa to its current size of 570,502 Sq. Km.

I would like to put some perspective to the size of the current Mount Isa SED.

In Queensland, prior to this current redistribution, there were 89 SED's and 30 CED's - a ratio of almost 3:1. Therefore it's logical that 3 SED's should virtually take up the same area as 1 CED.

However, the current version of Mount Isa is greater in area than the CED of Kennedy (which also contains Mount Isa, itself); and is second only in area to the CED of Maranoa.

This redistribution will require even more electors to be transferred into Mount Isa to keep it within enrolment quota. This time around, the Commission should seriously consider extending Mount Isa to the east, rather than the south. It should also consider reversing Mount Isa's southern expansion into the Diamantina LGA that it allocated in 2008 and instead ensure that Mount Isa's southern boundary extends no further south than the southern boundary of the CED of Kennedy.

District Maps

One feature I found missing on the 2008 ECQ District Maps, as well as the SA1 District maps published just prior to the publication of enrolment data, was that there was no reference to LGA boundaries. The AEC provide this information on their more recently updated Divisional maps and some other State Electoral Commissions also identify LGA boundaries.

An example of the Victorian Electoral Commission's SED maps is below with the LGA boundary clearly defined.

I propose that the ECQ also include this feature when the final 2016-7 District Maps are published at the conclusion of this Redistribution.

Divisional boundaries

One of the principles I have applied in my submissions for other State and Commonwealth Redistributions, is that electoral boundaries must be strong. In built up areas, I do this by following the same road, rail line or watercourse for as long as possible. In non-metropolitan areas my focus is on LGA and locality boundaries - trying to keep as many LGA's as possible united in a single CED or SED.

Continually changing boundary direction from one road to the next - or boundary type; from rail to road to watercourse to property boundary, only weakens a District boundary. My assessment of some of the existing SED boundaries is that many of them do chop and change; in both direction and boundary type all too frequently.

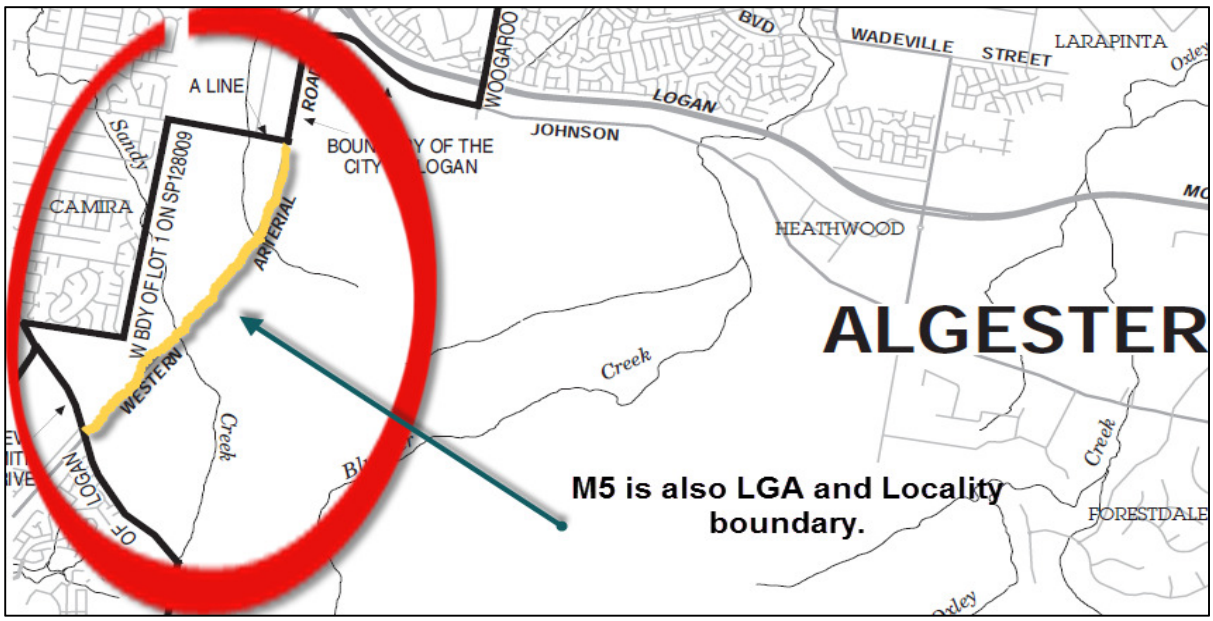

An example of simplifying SED boundaries:

I refer the QRC to part of the existing Algester – Inala boundary as published after the 2008 Redistribution. The Commission chose to run the boundary along a minor road well as a series of property boundaries and tracks rather than continuing SSW along the Centenary Motorway.

In doing so the Commission not only ignored both the LGA and Locality boundaries which continued SSW along the Centenary Motorway, but it also weakened the SED boundary by chopping and changing not only the boundary type, but also the boundary direction, making it more difficult for local voters to determine which SED they were now a part of.

Continuing the SED boundary SSW along the Centenary Motorway affected neither SED from an enrolment perspective. There were no electors in that part of the Locality of Camira that was incorporated into the SED of Algester.

The QRC should consider that the people most impacted by electoral boundary changes are voters, not surveyors. It's easier to visualise something physical like a Motorway as an electoral boundary, rather than try and conceptualise something logical like a plan of sub-division boundary. Keeping it simple – the KISS principle – should be the approach of those who determine where new SED boundaries will be located as a part of this Redistribution.

Analysis of enrolment statistics prior to the commencement of the Redistribution

Prior to the publication of redistribution enrolment data, I analysed four sets of enrolment statistics (3 actual, 1 projected); and thought it worthwhile to at least compile an enrolment framework so that I could determine which Districts to focus my attention on when the Redistribution commenced.

It is worth noting that the Projected Enrolment for all of Queensland at 17/12/2014 as published in the QRC's 2008 report was 3,098,154; excluding notional electors.

At the January 2015 State Election – held just 1½ months after the Projected Enrolment date – the number of electors on the roll was 2,932,395; some 165,759 electors **LESS** than was forecast 7 years before. That's 5 SED's worth of electors that were included in the considerations for the current boundaries who never materialised.

This equates to an overall growth between the 2007 redistribution and the 2015 State election of 11.46%. This was far less than the 17.76% that was forecast, or the 19.3% that occurred between 1999 and 2007.

I appreciate that population projections are exactly that – projections. However, the QRC must ensure that these projections are as accurate as they possibly can be. They are, after all, the numbers that form the basis of where new electoral boundaries are to be drawn for every Redistribution.

To have achieved only 65% of the estimated growth over 7 years cannot simply be allowed to pass without some form of follow-up action.

Whoever supplied the 2007 projected enrolment data to the QRC needs to be aware of the size of the discrepancy that "The fullness of time" has shown that discrepancy to be.

This numerical discrepancy needs to be learned from, and factored into future projections accordingly. Otherwise, who is to say that projection errors won't be repeated this time around or in future Redistributions?

Changes to LGA's

There have been a number of changes to LGA's – not only the number of LGA's but also their boundaries – since the 2008 Redistribution was completed.

I encourage the QRC to adopt the approach of the NSW Electoral Commission when it performed its 2013 Redistribution. In particular, the below paragraph copied from Page VI of their final 2013 report: (Bold my emphasis)

The Commissioners in delineating the proposed boundaries gave due consideration to maintain existing boundary configurations as far as practicable. The boundaries were also defined, where possible and particularly in rural and regional areas, to include whole Local Government Areas (LGAs) so as to reflect community of interest. This has resulted in a reduction in the number of LGAs split by electoral districts. ***Currently, 34 regional LGAs are split by existing boundaries and this is reduced to 12 under the proposed boundaries*** *…. Close attention was also paid to major features such as national and state parks, roads, motorways and railways…."*

Whilst it's true that Queensland has less than half the LGA's that were in NSW at the 2013 Redistribution, this doesn't mean the same principle shouldn't apply.

In my preliminary assessment of current LGA's (excluding Brisbane, Gold Coast, Ipswich, Logan, Moreton Bay and Redland) I found that 24 other LGA's were split across multiple SED's.

Of those 24: 13 LGA's - Carpentaria, Cassowary Coast, Gympie, Isaac, Livingstone, Mareeba, Scenic Rim, Somerset, South Burnett, Southern Downs, Tablelands, Western Downs and Whitsunday all had less electors than a current District quota, yet all were split between multiple SED's.

My proposal will seek to unite as many of these LGA's as possible into single SED's as part of compliance with section 46(1)(a) of The Act.

Duplication of names

Whilst there is a specific directive that CED and SED names are not to be duplicated – ostensibly to avoid confusion amongst voters; the same directive does not appear to apply to the next level of Government down. That is; there are a number of SED names that are also LGA names. Surely there is just as much potential to cause "confusion" amongst voters at this level of government as well?

The duplication of LGA and SED names is not unique to Queensland; most States are in a similar situation. This is one of the reasons I am an advocate for naming SED's in honour of people who are not otherwise honoured by having a significant locality or LGA named after them.

For reference, a table of LGA names that are duplicated at SED and/or CED level is below.

LGA Name	CED Name	Current SED Name(s)
Brisbane City	Brisbane	Brisbane Central; South Brisbane
Bundaberg Regional		Bundaberg
Burdekin Shire		Burdekin
Cairns Regional		Cairns
Cook Shire		Cook
Gladstone Regional		Gladstone
Gympie Regional		Gympie
Hinchinbrook Shire		Hinchinbrook
Ipswich City		Ipswich; Ipswich West
Lockyer Valley Regional		Lockyer
Logan City		Logan
Mackay Regional		Mackay
Maranoa Regional	Maranoa	
Moreton Bay Regional	Moreton	
Mount Isa City		Mount Isa
Noosa Shire		Noosa
Redland City		Redlands
Rockhampton Regional		Rockhampton
Southern Downs Regional		Southern Downs
Toowoomba Regional		Toowoomba North; Toowoomba South
Townsville City		Townsville

Part 2: Applying "The Act" and other principles.

What “The Act” instructs.

Below is copied from: https://www.legislation.qld.gov.au/LEGISLTN/CURRENT/E/ElectoralA92.pdf

45 Proposed electoral redistribution must be within numerical limits

(1) In preparing the proposed redistribution, the commission must ensure that the following requirement is satisfied, as at the end of the 21 days mentioned in section 43(2)(b), for each proposed electoral district—

(a) if the electoral district has an area of less than 100,000km2—that the number of enrolled electors does not differ from the average number of enrolled electors for electoral districts by more than 10%;

(b) if the electoral district has an area of 100,000km2 or more—the sum of the number of enrolled electors and the additional large district number does not differ from the average number of enrolled electors for electoral districts by more than 10%.

(2) In subsection (1)(b)— additional large district number means 2% of the number of km2 in the area of the electoral district.

46 Matters to be considered in preparing proposed electoral redistribution

(1) In preparing the proposed redistribution, the commission must consider the following matters—

(a) the extent to which there is a community of economic, social, regional or other interests within each proposed electoral district;

(b) the ways of communication and travel within each proposed electoral district;

(c) the physical features of each proposed electoral district;

(d) the boundaries of existing electoral districts; and

(e) demographic trends in the State, with a view to ensuring as far as practicable that, on the basis of the trends, the need for another electoral redistribution will not arise before the time stipulated by s.38 of the Act.

(2) The commission may also consider the boundaries of local government areas to the extent that it is satisfied that there is a community of economic, social, regional or other interests within each local government area.

(3) The commission may give such weight to each of the matters set out in subsections (1) and (2) as it considers appropriate.

My concern with *Section 46(1)(d)* of The Act, is the risk of it being applied unconditionally. As I noted in my submission to the AEC in relation to the NSW Redistribution:

> In every redistribution performed in the larger States; the numerical requirement often leaves the AEC no choice but to split a community of interest in order to ensure equal enrolment for all Divisions... ...To then apply the principle of retaining the maximum number of electors in their current electoral division opens up the risk of compounding a split community of interests at the next redistribution rather than addressing and reversing it.

So to that extent I propose to apply *Section 46(1)(d)* where strong electoral boundaries and/or communities of interests exist. This includes - but is not limited to – Roads; Railway Lines; Watercourses; LGA and locality boundaries.

Weaker boundaries - including but not limited to - unmarked or unfenced property boundaries, line-of-sight or 'point A to point B' land boundaries that are not either locality or LGA boundaries; I believe need to be reconsidered and re-drawn where possible.

Additional Principles adapted from the AEC

At the recent AEC Federal Redistribution of NSW, the Redistribution Committee also laid out some additional principles which - to the extent possible - I think are also worthy of adapting to this Redistribution. My intent of application for this Redistribution is below:

- *Proposed boundaries should not cross the major geographic features of the Great Dividing Range or the Brisbane River downstream of the Moggill Ferry.*

- *Community of interests represented by local government areas (LGAs) and localities are kept together, particularly in rural areas,*

- *Strong and readily identifiable features such as major roads, railway lines and watercourses are used to define electoral district boundaries, especially in built-up urban areas and provincial cities.*

My additional Principle

A logical extension of the Community of Interests criterion, also inspired by a Principle from the Victorian Electoral Commission to separate urban and regional areas:

- Major regional & provincial cities should have their built-up areas in separate Districts from surrounding rural areas to the extent that this is possible in each individual case.

On the naming of State Electoral Districts

As stated above, I believe more SED's should be named after prominent people who aren't otherwise recognised by having LGA's or significant localities named in their honour. The lead in naming SED's after prominent people rather than localities has been set by South Australia, followed closely by Queensland.

Dalrymple, Gregory & Nicklin are named after people who helped build the state – though I acknowledge Dalrymple **was** also an LGA, now incorporated into Charters Towers LGA. Nevertheless, the practice of honouring individuals with SED's named after them is not unprecedented in Queensland.

Whilst the Commonwealth Parliament allocates Divisional names for almost all former Prime Ministers, it also honours other people that have contributed to the nation. Ultimately, the Commonwealth should have first priority in choosing whom it honours by naming a CED after them; however, I see nothing wrong with each State also recognising its sons and daughters by naming State Electoral Districts in their honour.

The advantage to naming Electoral Districts in honour of people rather than after localities or LGA's is that a name-based district is transportable: That is; it can have its boundaries altered in an electoral redistribution without having to be renamed.

Historically, Divisions and Districts named in honour of individuals have tended to be focussed on explorers, people from the legal profession, politicians and social reformers. Recently deceased individuals (excluding Prime Ministers in Commonwealth redistributions) are rarely considered.

I therefore propose 9 names of individuals who either made their name in Queensland, were of Torres Strait Islander origin or were born in Queensland, for the QRC to consider allocating to the 4 new SED's. Or, should this redistribution force any of the existing District names to be made obsolete.

The suggested new District names are underlined:

- Bonney; Maude Rose "Lores" AM MBE – First woman to fly solo from Australia to England
- Davis; Arthur Hoey; AKA Steele Rudd - Author
- Fysh; Sir W. Hudson KBE, DFC – Military (WWI), QANTAS Co-founder
- Irwin; Steven Robert (Steve) – Conservationist, wildlife specialist, "The Crocodile Hunter"
- Jordan; E. Violet (Vi) OAM – Politician, 2nd Woman elected to the Queensland Parliament
- Mabo; Eddie Koiki – Indigenous Land Rights
- Macalister; Arthur – Politician, 2nd Premier of Queensland
- McMaster; Sir Fergus – Military (WWI), QANTAS Co-founder
- Oodgeroo; Noonuccal; AKA Kath Walker – Poet, political activist, artist, Aboriginal Rights campaigner

In a perfect world, a District named Mabo could really only occupy the land currently in the northern parts of the SED of Cook - though this would remove the duplication of the SED of Cook from the LGA of Cook.

Oodgeroo should ideally be in the Stradbroke Island vicinity and Irwin in the Sunshine Coast and hinterland vicinity.

Sir Fergus McMaster was born in Morinish near Rockhampton, so the potential to re-name a locality based District around Rockhampton to McMaster exists. Sir Hudson Fysh was Tasmanian by birth so his name could be used anywhere as a new District name.

“Lores” Bonney was born in South Africa but passed away on the Gold Coast, so it may be appropriate to name any new Gold Coast District in her honour. Her husband, Harry Bonney, was Bert Hinkler's first cousin once removed. Hinkler, of course, is already honoured with a CED named after him.

Vi Jordan was born in Ipswich, so perhaps one of the Ipswich Districts could be renamed Jordan. Arthur Macalister represented Ipswich in his 3 stints as Premier of Queensland.

Arthur Hoey Davis was born in Drayton, so renaming one of the Toowoomba Districts like Toowoomba South is a possibility. This would also eliminate the similarity of the SED Names of Toowoomba North and Toowoomba South.

I have incorporated all 9 of these names into my proposal below.

Part 3: Redistribution data analysis and electoral boundary proposal.

Executive Summary

Four new State Electoral Districts proposed as per the recently amended legislation.

A fifth new District proposed as a result of elector movement.

One existing District abolished.

Six existing Districts renamed.

Five Districts unchanged from their current (2008) boundaries.

A sixth District incorporating one boundary change; but not involving any elector movement.

Approach

The release of the current and projected enrolment by District data was the basis for the below analysis.

Rather than try and tackle the entire State as a single unit, I decided to break the State down into 8 separate geographical regions and look at the current and future enrolment projections.

This was also necessary so as to determine from where I should start the Redistribution process.

Each of those 8 tables appears below, with a series of issues that I felt needed to be addressed as a part of this Redistribution.

My principles for strong SED boundaries

As a rule I will try and unite a complete LGA or locality in a District where this is practical to do so - especially in regional areas.

In more urban areas I will often follow a road, rail line or a watercourse where this provides a clear and preferably continuous boundary.

Specifically; if my boundary is a road, the boundary will follow the centre line of the road. If the road is a divided road, then the boundary will follow the centre of the median strip.

If my boundary is a rail line, then the boundary is the centre of the two rails. If there are multiple lines; the boundary is the centre of either the middle track or between the 2 inner-most tracks.

If my boundary is a watercourse, it will be the deepest point of that watercourse.

Whilst these boundaries may not necessarily align with Locality, LGA, SA1 or current Electoral District boundaries, I believe they provide the clearest and least ambiguous definitions of these types of boundaries.

Regional Assessment and Analysis

As can be seen by the table above, the Far North is still projected to decline relevant to the rest of the State over the next 6 years. Only the Notional Electors allocated to Cook, Dalrymple and Mount Isa are keeping this region over quota. Current enrolment has sufficient electors for 6.81 SED's as at 30-10-15 declining to 6.73 SED's by 30-10-22.

Issues:

- Mount Isa SED - Continuing decline in enrolment. A new approach required - rather than continuing to grow the SED to the south, may be better to turn east to more populated parts of the State.
- Cairns urban area - Currently split between Barron River (part); Cairns (all) and Mulgrave (part). Can boundaries be adjusted so that the greater urban Cairns area is wholly covered by 2 SED's rather than 3?
- If point above can be achieved, how will that affect Cook?
- Propose Cook be renamed Mabo in honour of Eddie Mabo and to remove LGA/SED duplication of the name Cook.
- Hinchinbrook: Palm Island transfer in to Hinchinbrook to supplement numbers further north?

2. Mackay & Townsville

Region / District	Act. Enrol. 30-10-15	Var. (%)	No of Dist. - Curr. (Divided by 93)	Proj. Enrol. 30-10-22	Proj. Var. (%)	New Dist.

Avg	**32,643.86**	**32,643.86**		**36,363.86**		

Like the Far North, this region is also declining in population relevant to the rest of the State, and at a very similar rate, with only Whitsunday and Burdekin projected to grow between now and 2022. Current enrolment has sufficient electors for 7.1 SED's as at 30-10-15 declining to 7.03 SED's by 30-10-22.

Issues:

- Mackay & Mundingburra require significant numbers to supplement enrolment shortfalls.
- Mundingburra gains part of Burdekin that is on urban Townsville fringe?
- Opportunity to get more of urban Mackay in Mackay SED from Whitsunday SED.
- Propose Mirani be renamed McMaster in honour of Sir Fergus McMaster – QANTAS co-founder as his birthplace of Morinish is in this SED.

3. Tropic of Capricorn to Wide Bay - Current

At the risk of repeating myself; this region is also declining in population relevant to the rest of the State, but at a rate greater than those regions further north, with only Gladstone and Keppel projected to grow between now and 2022. Current enrolment has sufficient electors for 9.22 SED's as at 30-10-15 declining to 9.05 SED's by 30-10-22 - excluding notional electors.

Issues:

- Burnett needs to gain electors from elsewhere to supplement the numbers it loses to Bundaberg.
- Gladstone's surplus could transfer to Bundaberg via Burnett.
- Surplus in Keppel may force Rockhampton to incorporate parts of Norman Gardens, Frenchville and Koongal, in turn transferring areas like Gracemere, Fairy Bower and Port Curtis to Mirani
- Surplus in Hervey Bay pushes into Maryborough.
- Gregory expected to gain at least Diamantina and possibly Winton Shires from Mt Isa.
- Rename Mirani to McMaster in honour of Sir Fergus McMaster.

4. Sunshine Coast and Hinterland

Avg	**35,565.22**	**35,565.22**		**40,373.44**		

Not only is this Region growing at a rate greater than the State average, there are sufficient electors for a new SED to be created in this Region. Current enrolment has sufficient electors for 9.94 SED's as at 30-10-15 increasing to 10.04 SED's by 30-10-22.

Issues:

- Propose that new District be named Irwin in honour of Steve Irwin.
- Kawana, Caloundra and Maroochydore contain 58% of the numeric requirements for the new District, so it should be based in this area.
- Likelihood some SED's may need to be renamed to accommodate new District.
- Tidy up some SED boundaries to be more consistent in following road, rail, watercourse, locality or LGA boundaries. Avoid crossing significant geographical features which make ideal electoral boundaries where possible.

A region of 2 halves: SED's in the far west needing some numerical supplementation from the SED's further east.

Not only is the eastern part of this Region growing at a rate greater than the State average, there are sufficient electors for a new SED to be created in this Region, as well as supplement other regions. Current enrolment has sufficient electors for 10.65 SED's as at 30-10-15 increasing to 11.16 SED's by 30-10-22 - excluding notional electors.

There is a real chance that rapid growth in relatively small areas will lead to some Districts being outside +10% projected enrolment quota

Issues:

- Ipswich West to be renamed Jordan in honour of Ellen Violet (Vi) Jordan AM, second woman to be elected to the Queensland parliament.
- Condamine to supplement Warrego shortfall
- Lockyer's lay-out needs to be re-worked. Can lose Logan and Scenic Rim LGA territory.
- Eastern parts of Bundamba and Lockyer to form basis of new Electoral District to be named Macalister in honour of Arthur Macalister, 2nd Premier of Queensland.
- Rename Toowoomba South to Davis in honour of Arthur Hoey Davis AKA Steele Rudd.

The change from 89 to 93 SED's has meant this Region has slightly more electors than required, but as a proportion of overall State growth, this area is declining somewhat. Current enrolment has sufficient electors for 17.65 SED's as at 30-10-15 declining to 17.44 SED's by 30-10-22. These numbers also assume that all of Indooroopilly enrolment is counted as 100% north of the Brisbane River - which it isn't.

Issues:

- Kallangur, Morayfield and Murrumba have sufficient projected electors for 0.69 of a new District – tentatively named Fysh in honour of Sir W Hudson Fysh, QANTAS co-founder. This will force some District renames and the abolition of another District name.
- Indooroopilly: Severely under quota and split across the Brisbane River. Would like to make SED a wholly 'north side of the river' SED. Though with shortfalls in Ashgrove, Ferny Grove, Moggill and Mount Coot-Tha, Indooroopilly may well be the SED Name that is abolished to allow for the creation of Fysh.
- Everton and Ferny Grove both split between Brisbane City and Moreton Bay Regional LGA's – a chance to at least correct some of this split.
- Surplus in Brisbane Central to supplement shortfalls in Aspley and Stafford.

Even with the change from 89 to 93 SED's; this Region's enrolment as a proportion of all of the State will still not be enough to maintain the existing 19 SED's by the projected enrolment date. Current enrolment has sufficient electors for 19.4 SED's as at 30-10-15 declining to 18.83 SED's by 30-10-22. Though it should be noted that these numbers exclude the part of Indooroopilly that is south of the Brisbane River.

Issues:

- Regional enrolment shortfall will be offset by gaining the part of Indooroopilly that is south of the Brisbane River. This should address enrolment shortfalls in Mount Ommaney and Sunnybank.
- Surplus electors in South Brisbane to cascade SE to supplement shortfalls in Greenslopes and Mansfield
- Surplus in Redlands to supplement shortfall in Springwood. Also try and align Redlands SED boundary with Redland City LGA boundary.
- Capalaba and Cleveland minor territory exchange to balance out both SED's.
- Potential for minor adjustments to improve consistency of SED boundaries to be considered.
- Surplus in Waterford likely to merge with surplus from Gold Coast and create a new District based around Beenleigh which could be named Oodgeroo in honour of the aboriginal poet and activist we knew as Kath Walker.

The Gold Coast is still growing at a rate greater than the State average, though this growth is now more in its north, hinterland and west. The change from 89 to 93 SED's has meant there are sufficient electors for 1.73 new SED's to be created in this Region. Current enrolment has sufficient electors for 12.24 SED's as at 30-10-15 increasing to 12.73 SED's by 30-10-22.

Issues:

- Albert and Coomera will probably contract south and both become wholly Gold Coast City Council SED's.
- The extra Gold Coast SED I propose to be named Bonney in honour of Maude Rose "Lores" Bonney AM MBE
- Beaudesert needs to contract and will incorporate all of the Scenic Rim LGA.
- Pacific Motorway has potential to be main boundary between coast and hinterland Districts.
- The 0.31 surplus Districts from Beaudesert and the 0.42 surplus Districts from the Gold Coast CC Districts are likely to merge with the surplus electors from Waterford to create a new Beenleigh-based District which I have tentatively named Oodgeroo as noted above.

This concludes my assessment based on the whole-of-SED current and projected enrolment figures that were published by the QRC on their http://boundaries.ecq.qld.gov.au/ website late May.

District-by-District Proposal

This section comprises my full proposal for the redistribution of Queensland into 93 Electoral Districts.

It details the decisions I took to alter boundaries and my thought process as to why these changes were required.

Data integrity issue!

No sooner was the "Current and Projected SA1 Enrolment" CSV file published, when I discovered a data discrepancy. The projected enrolment numbers in the District and SA1 documents did not reconcile.

The Projected Enrolment figure for the District document was 3,365,502 whilst in the SA1 document, the Projected Enrolment figure was a lower 3,362,043. A difference of 3,459 projected electors.

This would alter the average enrolment for each of the 93 new SED's from 36,188 based on the District document to 36,151 based on the SA1 document.

Whilst most SA1 discrepancies were within 100 of the District figure, Kawana had a discrepancy of 1,238 electors less in the SA1 document than the District document. Other Districts with >100 discrepancy were Southport (-524); South Brisbane (-471) and Mansfield (-116)

These lower SA1 figures were withdrawn from the website by June 3rd, but by that time I had already completed by proposals for Barron River, Cairns, Cook, Dalrymple and Mount Isa.

1. Far North Districts: Barron River; Cairns; Cook; Dalrymple; Hinchinbrook; Mount Isa and Mulgrave

"Plan A" was to fit the Greater Cairns Urban Area into the Districts of Barron River and Cairns only. I felt this better complied with Section 46(1)(a) of The Act. And it almost worked: Until the time came to determine the new boundaries for Cook. Numerically, I had too many electors for Cook and not enough for both Mulgrave and Hinchinbrook.

Some serious re-jigging of the numbers for all 3 SED's was performed to make them work.

Cairns:

My proposed version of Cairns expands to the S and contracts to the NW of the existing SED. It gains the balance of Mount Sheridan as well as the localities of Bentley Park and White Rock in their entirety from Mulgrave. In its NW, it loses the balance of Edge Hill in addition to all of Kanimbla as well as parts of Manunda and Manoora to Barron River.

The Cairns - Barron River SED boundary within the existing Cairns SED now runs as follows: From the west and along the Mooroobool - Earlville locality boundary in an easterly direction, then following Chinaman Creek; N into Irene St; E into Beatrice St and continuing E along Kingsford and Givens St's; NW along Moodys Creek; N into Alfred St and continuing N along Pease St; NE into Anderson St and continuing along James St; NW into Lily Creek and continuing along Saltwater Creek into Trinity Bay.

Whilst this puts Cairns at the higher end of enrolment quota now, over time that will decline as a proportion of the State's enrolment.

I propose this District retain the name Cairns.

Table of Transfers: Cairns

Barron River:

At 19% over projected enrolment quota, Barron River had to lose electors to somewhere! They could have either been pushed south into Cairns, which would have only pushed more urban Cairns-based electors into the far more rural Mulgrave; or they could supplement both Cook and Dalrymple, with the opportunity to boost Mount Isa's numbers as a flow-on effect.

From a Communities of Interest perspective, I felt it was better to keep Barron River as a more 'built-up area'-based District.

Its new southern boundary with Cairns has already been detailed above. In its W, it transfers out all of its Mareeba LGA territory to Dalrymple. In its N, its boundary with Cook runs along a line in continuation west of McGregor Rd, Smithfield, as far as the Mareeba LGA boundary; then eastwards, along McGregor Rd; until it meets the Yorkeys Knob locality boundary; then in a northerly direction along the western locality boundary of Yorkeys Knob to the Coral Sea.

I propose this District retain the name Barron River.

Table of Transfers: Barron River

Variation		**6.95%**	**3.31%**

Cook:

Having gained 13,184 current and 15,094 projected electors from Barron River; Cook was significantly over quota. From its surplus electors, it could supplement the low numbers of both Dalrymple and Mount Isa to its south and west. This would change the demographic of Cook, transferring all of its territory in Carpentaria, Kowanyama, Mareeba, Pormpuraaw and Tablelands LGA's to Dalrymple and Mount Isa.

Along with the loss of these LGA's goes the loss of 1432 notional electors for the area those LGA's incorporate. A gain of an estimated 1 notional elector will be applied for the territory gained around the Cairns Northern Beaches.

Cook's new boundary with Barron River has been described under the detail of that District; its new boundary with Mount Isa follows the northern and eastern LGA boundaries of Pormpuraaw, Kowanyama, Carpentaria and Mareeba LGA's.

I propose this District be renamed from Cook to Mabo in honour of Eddie Mabo, and to remove the duplication of names between the LGA and the SED.

Table of Transfers: Cook / Mabo

District	Component	Proposed	Projected
Mabo / Cook		**29,789**	**32,207**
	Notional Electors (Current 3936)	**2,505**	**2,505**

New Total		**35,306**	**38,662**
Variation		**9.63%**	**6.84%**

Mount Isa:

As detailed above, Mount Isa gains the balance of Carpentaria LGA as well as all of Kowanyama & Pormpuraaw LGA's from Cook. It also gains the part of Mareeba LGA known as the Tablelands SA2 from both Cook and Dalrymple.

The Mount Isa – Dalrymple boundary within Mareeba LGA runs north to south along the eastern locality boundaries of: Mount Molloy; Biboohra; Paddys Green; Chewko; Arriga; Watsonville; Irvinebank; Munderra and Forty Mile.

This not only brought in an extra 4237 current and 4502 projected electors, but also another 1532 notional electors. This put Mount Isa outside the current +/-10% quota. To offset this, the Diamantina LGA was transferred back to Gregory, reducing enrolment by 150 current, 148 projected and 1893 notional electors.

These transfers focus Mount Isa more as a Gulf of Carpentaria community of interest than had existed in the past. To that extent I was concerned that the name Mount Isa may not have been the best name with which the whole District could identify with. The name Carpentaria immediately came to mind as a possible alternative. However, it would be hypocritical of me to suggest this SED be renamed to Carpentaria given my earlier statements about reducing the duplication between SED and LGA names.

Then there was the other word: Gulf.

I propose this District be renamed from Mount Isa to Gulf to better reflect the overall community of interest of the District.

Table of Transfers: Mount Isa / Gulf

District	Component	Proposed	Projected
Gulf / Mount Isa		**19,304**	**20,374**
	Notional Electors (Current 11,410)	**11,049**	**11,049**

New Total		**34,440**	**35,777**
Variation		**6.94%**	**-1.14%**

Dalrymple:

Changes already made above have created a vacuum around Kuranda which Dalrymple can push north to fill. The SA3 for the area is known as *Tablelands (East) – Kuranda*, and whilst much of it was already a part of Dalrymple, my proposal unites the entire SA3 in Dalrymple. This part of the wet tropics and tablelands is all linked by the Kennedy Highway. The transfer of Dalrymple's current part of Tablelands SA2 to Mount Isa / Gulf takes this SED almost back to a size where it does not require notional electors.

The extra electors gained in the north also means that the District has surplus numbers in the south so can excise its part of Isaac Regional LGA altogether. According to my estimates, this leaves the District with an area of less than 100,000 sq. km. so it no longer requires notional electors.

I propose this District retain the name Dalrymple.

Table of Transfers: Dalrymple

Mulgrave:

Having lost much of outer urban Cairns to Cairns SED, Mulgrave had to push south to make up its numbers. As luck - or was it good planning? - would have it; by transferring all of Cassowary Coast Regional LGA from Hinchinbrook to Mulgrave - excluding Hinchinbrook Island itself - Mulgrave is back within quota and has an easily identifiable new southern boundary.

I propose this District retain the name Mulgrave.

Table of Transfers: Mulgrave

Hinchinbrook:

Hinchinbrook has to push S into the outer urban parts of Townsville to return it to quota. The Bohle River now forms the greater part of my proposed boundary between the Townsville-based SED's and Hinchinbrook.

From N to S within the City of Townsville, the Hinchinbrook SED boundary runs upstream along the Bohle River to its junction with the Little Bohle River; from there it continues along the Little Bohle River before turning S following the eastern locality boundary of Alice River until that meets the Black River; continuing S along the eastern locality boundary of Hervey Range until it meets the Townsville - Charters Towers Regional LGA boundary.

Given Palm Island is physically closer to Ingham than it is to Townsville, I also propose to transfer Palm and Island and surrounding islands including Orpheus Island from Townsville to Hinchinbrook.

I propose this District retain the name Hinchinbrook.

2. Mackay and Townsville area Districts: Burdekin; Mackay; Mirani; Mundingburra; Thuringowa; Townsville and Whitsunday.

This series of 7 SED's has 2 significantly under enrolled Districts - Mackay and Mundingburra. It also has the significantly over enrolled Whitsunday. Mirani is also set to gain the Isaac Regional LGA electors that were surplus to the revised Dalrymple - 4965 current & 5585 projected electors.

With Hinchinbrook taking 8769 current & 11,463 projected electors from Thuringowa and Townsville already, these Districts are likely to push in a southerly direction to gain any shortfall.

Townsville:

Townsville had already lost Palm Island and surrounding islands including Orpheus Island to Hinchinbrook. This put it only slightly under the current and projected enrolment averages and well within quota. Even though Townsville's southern boundary with Mundingburra tended to chop and change directions, there was no need to alter something that already worked. To that extent I propose no further changes to Townsville.

I propose this District retain the name Townsville.

Table of Transfers: Townsville

District	Component	Proposed	Projected
Townsville		**32,871**	**36,560**
To Hinchinbrook	Ingham Region SA1 # 3146511 - Orpheus Island	-3	-3

New Total		**32,010**	**35,626**
Variation		**-0.60%**	**-1.55%**

Thuringowa:

Much of the existing Thuringowa's NW had been transferred to Hinchinbrook, so Thuringowa had to gain additional electors to its east from the already below quota Mundingburra.

The Ross River was a strong eastern boundary for the southern parts of Thuringowa and I saw no need to cross the river to supplement Thuringowa's requirements. My first priority was to re-unite all of Kirwan in Thuringowa and push eastwards, transferring whole suburbs, if this were possible, until I got Thuringowa back within quota. As it turned out, I needed to acquire only the balance of the locality of Kirwan and the entire locality of Heatley from Mundingburra to get Thuringowa back with current and projected quota - albeit at the lower end of projected quota.

I propose this District retain the name Thuringowa.

Table of Transfers: Thuringowa

District	Component	Proposed	Projected
Thuringowa		**33,899**	**38,163**

New Total		**31,819**	**33,497**
Variation		**-1.20%**	**-7.44%**

Mundingburra:

The loss of the balance of Kirwan and all of Heatley to Thuringowa leaves Mundingburra having to gain between 7646 and 14,884 projected electors to get back within quota. There was an opportunity for Mundingburra to its SE, picking up the built-up areas like Oonoonba and Wulguru.

By transferring the balance of the Annandale SA2 from Burdekin as well as all of both the Oonoonba and Wulguru - Roseneath SA2's from Burdekin; Mundingburra was back to within 1% based on both current and projected enrolment figures.

Mundingburra's new south-eastern boundary would follow the southern and eastern boundaries of Wulguru - Roseneath SA2 and the southern part of the Annandale SA2 boundary.

I propose this District retain the name Mundingburra.

Table of Transfers: Mundingburra

District	Component	Proposed	Projected
Mundingburra		**29,676**	**30,786**

Burdekin:

This version of Burdekin was not my first draft. I had to come back and re-visit my proposal for this District after numbers further south didn't work out.

Burdekin was the first SED that I encountered where there wasn't any obvious solution as to where to acquire the number of electors required to get this SED back within quota. I spent some time deciding on whether to transfer them in from either Mirani or Whitsunday.

I came to the conclusion that Burdekin had already acquired sufficient Whitsunday LGA territory with its existing boundary. To extend further towards the Proserpine - Airlie Beach area would have rendered the SED name Whitsunday virtually obsolete. Besides, there were more electors around the Proserpine - Airlie Beach area than Burdekin required, and it would have been difficult to split this area between the 2 SED's without compromising Section 46(1)(a) of The Act.

So I propose to extend Burdekin south into Isaac Regional LGA, firstly acquiring the part of this LGA that is now surplus to Dalrymple's requirements - including Moranbah, as well as the balance of Clermont SA2 currently divided between Mirani and Gregory. I also propose to transfer the part of Broadsound - Nebo SA2 from Mirani to Burdekin that contains the eastern approach to Moranbah; the Peak Downs Highway. To fulfil that requirement, I propose that the localities of Mount Britton; Hail Creek; Strathfield; Coppabella and all localities to the NW of these localities in the Broadsound - Nebo SA2 be transferred to Burdekin.

I propose this District retain the name Burdekin.

Mackay:

Though Whitsunday was the next logical District to assess, there was a significant numerical shortfall in Mackay that needed to be addressed first. I had declared one of my principles on page 17 of this document to be "Major regional & provincial cities should have their built-up areas in separate Districts from surrounding rural areas to the extent that this is possible in each individual case". Mackay is exactly the type of District that this principle needed to be applied to.

Mackay had to gain somewhere between 1428 and 8666 projected electors to be within quota.

It was now a matter of where to gain those projected electors from. When looking at the Whitsunday District SA1 map published by the ECQ just prior to the commencement of this Redistribution, it was clear that the area around Mount Pleasant and Glenella should be the area in which Mackay expands into, to gain its additional electors. To that extent I propose that the Mackay – Whitsunday boundary move, and from the Pioneer River follow Fursden Creek upstream until it is crossed by the Mackay Bypass Rd, AKA Glenella Connection Rd. From there the proposed boundary turns N along the Mackay Bypass Rd; W along Goosepond Creek; NE along the rail line that doubles as Mount Pleasant's northern locality boundary back to the existing Mackay – Whitsunday SED boundary where the railway line is crossed by Norris Rd. This transfer puts Mackay at the higher end of current enrolment quota, but this is projected to decline over time.

I propose this District retain the name Mackay.

Whitsunday:

Based on the new 93 District calculations, Whitsunday was already in excess of current enrolment quota and projected to grow even further. Whitsunday had to lose between 2644 and 9882 projected electors to get back within enrolment quota.

The transfer of electors in the Mount Pleasant and Glenella localities to Mackay as described above achieved that requirement. I propose no further changes to Whitsunday.

I propose this District retain the name Whitsunday.

Mirani's final boundaries cannot be determined until after the 2 SED's it surrounds – Keppel and Rockhampton – have been assessed and amended.

3. Fitzroy, Wide Bay, Tropics: Bundaberg; Burnett; Callide; Gladstone; Gregory; Hervey Bay; Keppel; Maryborough and Rockhampton.

Keppel:

Keppel shared boundaries with only Mirani and Rockhampton. Keppel's projected enrolment was over quota and it needed to lose between 1642 and 8880 projected electors.

Keppel also had a significant portion of the built up areas of eastern and northern Rockhampton itself. I determined that the most logical solution to Keppel's surplus was to transfer parts of urban Rockhampton currently in Keppel into the Rockhampton SED.

The part of Keppel I propose to transfer to Rockhampton is as follows: Following the Bruce Highway south in Norman Gardens; leaving the existing SED boundary by turning NE onto Farm St; SSE onto Norman Rd and briefly re-uniting with the existing Keppel - Rockhampton SED boundary on Dean St and Frenchville Rd; but continuing further E on Frenchville Rd; S on to the road reserve marked as Holt St; in a generally southerly direction along Thozets Creek until it reaches the Fitzroy River.

A small adjustment was also made in Rockyview (SA1 # 3120901) between Keppel and Mirani to transfer that part of Rockyview in Mirani to Keppel. It allowed the Mirani – Keppel SED boundary to continue along the Bruce Highway, further strengthening that boundary.

The objective was to unite as much of Urban Rockhampton into a single SED as I could without taking Keppel below current or projected quotas.

I propose this District retain the name Keppel.

Table of Transfers: Keppel

Rockhampton:

Having gained parts of Frenchville, Koongal and Norman Gardens from Keppel, Rockhampton was now over quota to the extent that it had to shed electors to Mirani.

The most logical place to shed numbers was the locality of Gracemere. Whilst Gracemere is a significantly built up area within itself, it is not a part of greater urban Rockhampton in the same sense that Frenchville and Norman Gardens are. I therefore propose to complete my proposal for Rockhampton by transferring that part of both the Gracemere and Bouldercombe SA2's that are currently a part of the Rockhampton SED.

I propose this District retain the name Rockhampton.

Mirani:

The transfer of Gracemere from Rockhampton to Mirani put this District way over current and projected enrolment quotas. It was trying to get the numbers right in Mirani that caused me to go back and review my original proposal for Burdekin. To make Mirani comply with its enrolment criteria, I had to contract Mirani to the E, transferring some of what is currently in Mirani's NW corner to both Burdekin and Gregory. Whilst the new shape of the District in its north isn't that aesthetically appealing; it is nevertheless numerically within quota and overall has moved closer to the coast.

Mirani transfers to Burdekin its part of the Clermont SA2 as well as the part of Broadsound - Nebo SA2 containing the localities of Mount Britton; Hail Creek; Strathfield; Coppabella and all localities to the NW of these localities.

Mirani transfers to Gregory the mining towns of Dysart and Middlemount in addition to the surrounding localities of May Downs and the balance of Mackenzie River.

In its south, Mirani transfers its portion of Bouldercombe and all of Mount Morgan SA2 to Callide; in the process giving Callide a coastal footprint between the Fitzroy River and Raglan Creek.

On Mirani's eastern boundary with Keppel, it re-aligns along the Bruce Highway, re-uniting the entire locality of Rockyview in Keppel.

I propose this District be renamed from Mirani to McMaster in honour of Sir Fergus McMaster, who was born in the town of Morinish.

Gregory:

Gregory was still within projected quota but heading towards the lower end. Though in isolation, Gregory could have been left unchanged; changes on the east coast around Cairns had a flow-on effect to Mount Isa. This in turn flowed into Gregory with the transfer of Diamantina LGA back to Gregory.

Changes further south saw Gregory lose Clermont but gain the mining towns of Dysart and Middlemount in addition to the surrounding localities.

I also calculated an increase of 1820 notional electors based on the exchanges of territory with Burdekin, Mirani and Mount Isa.

I propose this District retain the name Gregory.

Callide:

Callide was at the lower end of current quota and had to gain electors to meet projected quota. By gaining Mount Morgan and the parts of Bouldercombe and Rockhampton City that were surplus to Mirani, Callide was back within requirements. No further adjustments were required.

I propose this District retain the name Callide.

Gladstone:

To get back within quota, Gladstone had to transfer out between 211 and 6651 current as well as between 2332 and 9570 projected electors.

Given that further south along the coast the SED of Bundaberg was almost as far under quota as Gladstone was over quota, it was only logical that Gladstone's surplus should supplement Bundaberg's shortfall by transferring these electors to Bundaberg via Burnett.

Urban Gladstone would remain unchanged. The Gladstone Hinterland SA2 would be split between Gladstone and Burnett with the localities of Mount Alma, Wooderson, Calliope, Benaraby, Iveragh and all localities to the S of these localities in this SA2 transferred to Burnett.

I propose this District retain the name Gladstone.

Burnett and Bundaberg:

Burnett is one of those SED's that is within both current and projected enrolment quotas, so ideally should require no changes except that the SED it encircles - Bundaberg - is significantly under quota.

As I have stated above, the first priority for Bundaberg is to acquire as much of urban Bundaberg from Burnett as is necessary to get both SED's within current and projected enrolment quotas.

I propose that all of the localities of Ashfield, Branyan, Kalkie and Kensington be united in Bundaberg. I also propose to unite the entire locality of Bundaberg North in Bundaberg, but this will cause some guess-work on numbers as the SA1 boundaries do not tie in with the locality boundary in this instance.

I also propose that both of these Districts retain their names of Bundaberg and Burnett respectively.

Hervey Bay:

With the change to 93 Districts, Hervey Bay had surplus electors both current and projected and could only transfer those surplus electors to Maryborough.

Again, my approach was to keep as much of the developed suburbs around Hervey Bay united in that SED as I could. This meant transferring the outlying areas like Dundowran Beach, Booral, Nikenbah and localities further south to Maryborough.

I propose this District retain the name Hervey Bay.

Maryborough:

Having gained sufficient electors from Hervey Bay to put it outside current and projected enrolment requirements, Maryborough had to transfer out its surplus electors. With numbers for Hervey Bay, Burnett and Callide having already been determined any surplus could only go south to Gympie.

My approach was to firstly transfer that part of Gympie Regional LGA around Curra from Maryborough back to Gympie. The problem I encountered here was that a number of SA1's were split between Fraser Coast Regional and Gympie Regional LGA's, and with no breakdown of these SA1's by LGA - **AS I HAD REQUESTED THE ECQ TO PROVIDE AS FAR BACK AS JANUARY THIS YEAR** - determining exact numbers of electors for each LGA boundary is going to be impossible for me to obtain. So I am going to use the SA2 value and hope that those numbers are close enough.

Regardless, this transfer still left Maryborough with too many electors and more needed to be transferred south to Gympie. To ensure Maryborough is within and stays within enrolment quotas, I propose these localities make up the southern boundary of my proposed Maryborough: Brooweena; Aramara; Thinoomba; Yerra; Pilerwa; Mungar; Tinana South; Bidwill; Tuan Forest.

These transfers also dramatically reduce the size of Maryborough.

I propose this District retain the name Maryborough.

4. Sunshine Coast, Hinterland and southern approach: Buderim; Caloundra; Glass House; Gympie; Kawana; Nicklin; Maroochydore; Noosa and Pumicestone.

As noted in my regional assessment at the top of this section, there are sufficient electors within these 9 SED's to create a 10th SED in this region.

Nanango's eastern SED boundary aligns with Somerset Regional LGA boundary. I saw no Community if Interest benefit in transferring any electors between the Sunshine Coast Districts and Nanango. To that extent, Nanango's eastern boundary will remain unchanged as a part of my proposal.

The advent of Noosa Shire at the northern end of the Sunshine Coast will cause some boundary changes for Noosa. From a Communities of Interest perspective, I believe that SED should be a wholly Noosa LGA District if possible.

In the south, Caloundra is seriously divided between its coastal and hinterland components with little connection between the 2 halves of this District.

There are a number of features which are already used to separate SED's in this area; the Bruce Highway and the Sunshine Motorway are both used as SED boundaries. The Petrie Creek east of Nambour is also used.

Unfortunately, SA1 boundaries don't necessarily follow natural or man-made features from one end to the other.

Gympie:

The surplus from Maryborough already transferred to Gympie puts Gympie over quota. This can be offset by transferring out its Noosa LGA component to Noosa SED. This transfer puts Gympie back within current and projected enrolment quota and aligns its western, southern and eastern SED boundaries with the Gympie Regional LGA boundary.

I propose this District retain the name Gympie.

Table of Transfers: Gympie

New Total		**34,076**	**37,082**
Variation		**5.81%**	**2.47%**

Noosa:

Although Noosa had gained the electors in the NW of Noosa LGA from Gympie, in its south, the separation of Noosa Shire from the Sunshine Coast Regional LGA meant it carried electors from both LGA's. From a Communities of Interest perspective, I thought that Noosa SED should contain 100% Noosa LGA electors, so I transferred out of Noosa those parts of the existing District that were not a part of Noosa LGA.

I also propose to re-align the Noosa - Nicklin SED boundary within the locality of Cooroy. Rather than the existing SED boundary which goes around the more built-up areas of Cooroy but is mainly a property boundary-based SED boundary, I propose instead to follow the Railway Line right through the town.

This gives a far more visible, straightforward and more easily identifiable boundary than the current arrangement.

I had wanted all of Noosa LGA east of the Bruce Highway to be in Noosa SED, but current enrolment numbers were too high to accommodate my plans.

I propose this District retain the name Noosa.

Nicklin:

Nicklin was already projected to be outside quota before the exchange of electors as described above with Noosa SED. With the net electors it gained, Nicklin had to lose somewhere between 7085 and 14,323 projected electors.

The only part of Nicklin with this many electors in one area was Nambour. But if Nambour was transferred out; then - from a Communities of Interest perspective - the Maroochy Hinterland to Nambour's west also needed to be transferred out of Nicklin. These 2 transfers together left Nicklin

below quota, so in order for this to work, Nicklin had to gain other electors from elsewhere. Time to take a step back!

With this region entitled to gain one of the four new SED's, it was time to start re-engineering some SED boundaries to accommodate that extra SED.

This will involve a dramatic re-drawing of Nicklin, contracting in its south and west, and expanding to its east and north.

Nicklin's gains from Noosa have already been described as a part of my Noosa description, above. In its east, Nicklin also gains the balance of the Coolum Beach SA2 from Maroochydore. I also moved the boundary between Nicklin and Maroochydore in the Marcoola – Mudjimba SA2 from the Sunshine Motorway to the Maroochy River. In its south and west, Nicklin transfers out all of its Diddillibah – Rosemount; Maroochy Hinterland; Nambour and Palmwoods SA2's as well as that part of Bli Bli SA2 that is west of the Bruce Highway to the new Sunshine Coast SED I propose be named Irwin.

I propose this District retain the name Nicklin.

Maroochydore:

Having lost its portion of the Coolum Beach SA2 to Nicklin, Maroochydore was now outside quota. To compensate, it gained the part of the Marcoola - Mudjimba SA2 that was west of the Sunshine Motorway from Nicklin as described above; as well as all of the Buddina – Minyama SA2 from Kawana. This put Maroochydore very close to both current and projected enrolment quotas.

New Sunshine Coast District:

The new District takes up the surplus electors from my re-engineering of Nicklin as described above, as well as the northern parts of Glass House.

This District gains both Caloundra's and Glass House's portion of the Caloundra Hinterland SA2 and Glass House's portion of Palmwoods SA2. In addition it gains the solitary SA1 of the Buderim – South SA2 that is currently in Glass House – SA1 # 3141408.

Some assumptions have had to be made about the precise number of electors being transferred as I had to split any SA1's that crossed the Bruce Highway.

This District's eastern boundary is the Bruce Highway and its western boundary is the Sunshine Coast Regional LGA boundary.

I propose this new District be named Irwin in honour of Steven Robert (Steve) Irwin.

With both Caloundra and Kawana well in excess of projected quotas and Kawana also outside current quotas, I began what turned out to be a very painstaking analysis to try and get both Districts to meet the requirements of Section 46(1)(a) of The Act.

With too many coastal electors for just 1 SED remaining between Parrearra and Warana in the north and Pelican Waters in the south; some Community of Interest was always going to be sacrificed for numeric requirements. However it should be noted that the current version of the Caloundra SED is no less compromised to that extent, than my proposed version of one of these Districts is going to be.

Caloundra:

Currently, Caloundra is a District of 2 distinct halves; the coast and the hinterland. The change to 93 Districts put Caloundra's projected enrolment from just outside quota to significantly outside quota.

Caloundra needs to lose somewhere between 1877 and 9115 electors to get back within quota. So far, I had only managed to transfer 25 current and 28 of its projected electors to the new SED of Irwin which related to the eastern part of the locality of Bald Knob. That transfer united the entire locality of Bald Knob in Irwin.

Ultimately I decided that Caloundra and Kawana should swap the inland part of their Districts, with Caloundra taking much of the ocean facing area and Kawana being split between the coast and the hinterland. In detail, the boundary of my proposed version of Caloundra is as follows: From the Pumicestone Channel into Bells Creek, then westwards (mostly) along the Bells Creek Rd but specifically following the Bells Creek - Coochin Creek locality boundary; N onto the Bruce Hwy; E onto Caloundra Rd; N into Latcham Dr; E along Mark Rd; N into the road reserve still marked as Quarry Rd; W onto Sugar Bag Rd; N following the western locality boundaries of Aroona and

Currimundi; N onto Kawana Way; E, following an un-named watercourse along Currimundi's northern locality boundary to the ocean.

This proposed version of Caloundra I feel better overall reflects that community of interest.

I propose this District retain the name Caloundra.

Kawana:

With Caloundra's new boundary determined, Kawana would retain the balance of its electors east of the Bruce Highway, but these were not enough to fulfil its minimum quota for a District. Kawana would cross the Bruce Highway and take the northern part of Landsborough SA2 that is currently in Caloundra.

Specifically the localities of Palmview; Glenview; Mooloolah Valley and Diamond Valley have been transferred to Kawana. I have had to make assumptions on the precise enrolment as SA1 #3144217 is split between the localities of Mooloolah Valley and Landsborough, and I thought it better from a Communities of Interest perspective, that the SED boundary should follow the Locality boundary in this instance.

Given the extraordinary growth forecasts for some of the SA1's included Kawana sits at near the lower end of current quota and near the upper end of projected quota.

The name Kawana does not appear to relate to a specific locality in this area. The only Kawana locality in Queensland is a northern suburb of Rockhampton. Also, given that some of the parts of this area that identify as Kawana have also been transferred to other Districts, I felt this name did not reflect the identity of my proposed District.

One feature that is consistent in this proposed District is the Mooloolah River. Based on that, I felt renaming this District from Kawana to Mooloolah better reflected the new District's identity.

I propose this District be renamed from Kawana to Mooloolah, recognising a geographical feature - the Mooloolah River - which runs the length of this District.

Glass House:

Glass House was initially outside both current and projected enrolment quotas, but had much of its north transferred to the new District of Irwin.

To get back within quota, Glass House acquires the balance of the localities of Landsborough and Beerwah from Caloundra, re-uniting both localities in Glass House. It also acquires the balance of Wamuran SA2 from Pumicestone and has an exchange of electors within Caboolture itself with Pumicestone. Those details will be described below.

I propose this District retain the name Glass House.

Table of Transfers: Glass House

Pumicestone:

Like Glass House, Pumicestone is also outside both current and projected quota and needs to lose electors. Looking at the current SED map of Pumicestone, the most obvious place to start addressing that reduction in electors is from that horrible appendage on its western side of the Bruce Highway.

Before addressing that issue, I decided to transfer that part of Bribie Island that was in Caloundra to Pumicestone. Though it is a part of the Sunshine Coast LGA, it has zero electors and has no direct land-based connection with any part of Sunshine Coast LGA. It's only land-based connection is south, through the rest of Bribie Island and Moreton Bay LGA. This unites the entire island in Pumicestone and places more of the Pumicestone Channel itself in Pumicestone SED.

In addressing the area of Caboolture west of the Bruce Highway that is in Pumicestone, I firstly transferred the locality of Bellmere to Morayfield. This involves just over 3000 electors (current and projected) and given my Northern Metropolitan Region was declining in enrolment as an overall proportion of the State; I thought these electors may compensate for some of that decline.

My next step was to re-align the Pumicestone - Glass House SED boundary on the western side of the Bruce Hwy within Caboolture itself. I now propose to run the boundary from the Bruce Hwy, SW along Pumicestone Rd until it crosses the Rail Line, then SSE along the Rail Line until it meets the Caboolture River.

I propose this District retain the name Pumicestone.

5. West and Far West: Bundamba; Condamine; Ipswich; Ipswich West; Lockyer; Nanango; Southern Downs; Toowoomba North; Toowoomba South and Warrego.

As noted in my regional assessment at the top of this section, there are sufficient electors within these 10 SED's to create an 11th SED in this region, and have electors to spare.

On deeper examination, the Districts of Southern Downs, Toowoomba North and Toowoomba South are all within both current and projected quota so all 3 Districts could remain unchanged from an electoral boundaries perspective. However, with Condamine projected at 17% over and Warrego 7% under, it means about 3600 electors will need to transfer east and with the Toowoomba - Lockyer LGA boundary also marking the SED boundaries of Condamine, Lockyer, Nanango, Toowoomba North and Toowoomba South, it will need to be breached to transfer those surplus electors east.

The only change I will propose is the renaming of Toowoomba South to Davis in honour of Arthur Hoey Davis AKA Steele Rudd.

Logically Warrego's shortfall should be able to be supplemented from Condamine and/or Nanango, though given the major source of electors in Condamine that is close to Warrego is Dalby, this may not be the simple task if first appears.

Further east, the surplus electors around Bundamba, both Ipswich's and Lockyer will allow for the creation of a new District somewhere in that area.

Ipswich West to be renamed Jordan in honour of Vi Jordan OAM.

Lockyer should also be able to contract from its eastern expanses and transfer its Logan and Scenic Rim LGA territory and electors out to Districts further east.

Nanango:

Though Nanango was well within current and projected enrolment quotas, the opportunity to re-align its north-western corner along LGA lines and transfer out Nanango's part of Western Downs Regional LGA to both Condamine and Warrego was an opportunity too good to miss.

Although the movement of electors was only small, I felt it was a gain from a Community of Interest perspective with electors in Western Downs Regional LGA now represented by 3 State Members of Parliament rather than 4.

I propose this District retain the name Nanango.

Table of Transfers: Nanango

District	Component	Proposed	Projected
Nanango		**34,666**	**37,755**
To Condamine	Wambo SA1 #3118318 - balance	-5	-5

New Total		**34,385**	**37,445**
Variation		**6.77%**	**3.47%**

Warrego

Though Warrego was within both current and projected quota, it was at the lower end of projected quota. The potential to modify its boundary with both Nanango and Condamine did present the opportunity to supplement Warrego's numbers slightly.

To that extent I propose to change the Condamine - Warrego boundary which currently runs along the Condamine River and Jimbour Creek and bring it back to the Dalby locality boundary. The localities that are currently either partially or fully in Condamine I propose to transfer to Warrego are: Ranges Bridge; Macalister; Pirrinuan; Jimbour; Bell; Cooranga and Bunya Mountains.

Along with the small increase in electors comes a small increase in notional electors.

I propose this District retain the name Warrego.

Table of Transfers: Warrego

New Total		**33,332**	**34,558**
Variation		**3.50%**	**-4.50%**

Condamine:

Condamine is significantly over quota and needs to lose between 2574 and 9812 projected electors to stay in quota. Whilst any transfers in Condamine's east to Warrego were important to achieve, I did not want to divide the locality of Dalby itself between Warrego and Condamine.

To its east, urban Toowoomba is expanding into regional Condamine, so the opportunity to transfer some of those outer urban Toowoomba electors currently in Condamine back into the 2 Toowoomba Districts should bring this District back within quota.

Condamine's transfers to Warrego have already been described above.

On Condamine's boundary with Toowoomba South, suburbs like Cotswold Hills, Torrington, Glenvale, Drayton, Kearneys Spring and Darling Heights are all now built-up areas, and logically should be in one of the two Toowoomba SED's. I therefore propose to transfer to Toowoomba South the parts of the localities of Drayton, Darling Heights and Kearneys Spring that are currently in Condamine, uniting each of these localities in Toowoomba South and get Condamine back within quota.

I propose this District retain the name Condamine.

Table of Transfers: Condamine

New Total		**32,879**	**36,990**
Variation		**2.10%**	**2.22%**

Toowoomba South:

The transfer of surplus electors from Condamine put Toowoomba South outside quota. To correct this, I decided to continue the Toowoomba North - Toowoomba South SED boundary further westwards along Glenvale Rd to Boundary St. This unites the entire suburb of Newtown in Toowoomba North along with the more built-up and commercial parts of Glenvale.

These transfers leave Toowoomba South safely within current and projected quotas and strengthen the Toowoomba North - Toowoomba South SED boundary further.

I propose this District be renamed from Toowoomba South to Davis in honour of Arthur Hoey Davis and to remove one instance of the SED - LGA name duplication.

Table of Transfers: Toowoomba South / Davis

District	Component	Proposed	Projected
Davis / Toowoomba South		**34,226**	**35,428**

Variation		**7.57%**	**3.30%**

Toowoomba North:

The transfer of electors from Toowoomba South puts Toowoomba North outside quota. With enrolment numbers for Nanango, Condamine and Toowoomba South / Davis already determined, the only District it can transfer surplus electors to is Lockyer.

Though it is not my preferred option to fragment Toowoomba further, there really isn't that much choice. The greater urban Toowoomba area is numerically too large for 2 Districts but has insufficient electors for 3 Districts.

The localities I propose to transfer eastwards to Lockyer are from the east of Toowoomba and are either removed from urban Toowoomba itself or have direct connection to the Warrego Highway.

I therefore propose to transfer the localities of Prince Henry Heights, Redwood and East Toowoomba to Lockyer.

This brings Toowoomba North back within quota.

I considered proposing to rename this District as simply Toowoomba in light of my proposal to rename Toowoomba South to Davis, but 'Toowoomba North' perhaps more accurately reflects its Community of Interest better than the more simple 'Toowoomba' does.

Therefore, I propose this District retain the name Toowoomba North.

Lockyer:

Already projected to be 34% over quota, Lockyer's gain of another 4239 projected electors from Toowoomba North only increased the number of electors Lockyer had to transfer out to get back within quota.

Fortunately, Lockyer's shape is a fairly good indicator from where these electors need to be transferred out from.

Lockyer will transfer out all of its Logan City LGA territory to the new SED required in this area which I have proposed be named Macalister. Lockyer's Scenic Rim LGA territory will transfer to Beaudesert SED. Then Lockyer will contract westwards shedding as much Ipswich LGA territory as required to get it back within quota.

I determined the eastern boundary of Lockyer to now be the Warrill Creek, which forms the eastern locality boundaries of Willowbank and Mutdapilly. The balance of Lockyer's boundaries remain unchanged. Whilst this puts Lockyer at the lower end of quota, its growth is still projected to be better than the State average.

I propose this District retain the name Lockyer.

Ipswich West:

I assessed Ipswich, Ipswich West and Bundamba as a group of 3 Districts given the astronomical growth projected for this part of the State – especially Bundamba. In addition, the growth in the Ripley SA2 which I had transferred out of Lockyer as surplus to requirements also needed to be factored in.

There was a real risk that at least one of these Districts is going to have a projected enrolment at >+10% of quota purely based on this projected growth.

However, given 12 of the 89 current Districts are outside quota at the time this Redistribution commenced; to have just a handful of Districts outside quota in 6 years' time is a better situation than the one that currently exists.

Whilst Ipswich West was within current enrolment quota it could lose up to 5774 current and between 3161 and 10,399 projected electors and still stay within quota. Given the Districts of Nanango and Lockyer had already been assessed, and that the Divisional boundary between Ipswich West and Moggill was the Brisbane River, Ipswich West could really only transfer electors to Bundamba, Ipswich or to its south in the area that Lockyer used to occupy. Though this last option was possible, it was impractical.

To get the numbers right I transferred all of the localities of Barellan Point and Karalee, plus the part of Chuwar that was E of Mount Crosby Rd from Ipswich West to Bundamba. (I also had plans for the Bundamba SED to acquire the balance of the Bundamba locality from Ipswich). In addition, I transferred the entire locality of One Mile from Ipswich West to Ipswich.

Ipswich West's current enrolment is near the bottom end of the quota, but is projected growth will have it above average by 2022.

I propose this District be renamed from Ipswich West to Jordan in honour of Vi Jordan and to remove one instance of the SED - LGA name duplication.

Ipswich:

Ipswich was within current enrolment quota it could lose up to 4539 current and between 2742 and 9980 projected electors and still stay within quota. Given that Ipswich West had already been assessed, Ipswich could only transfer electors to Bundamba or to its south in the area that Lockyer used to occupy.

Ipswich had gained the locality of One Mile from Ipswich West.

I had already indicated my intention to re-unite all of Bundamba in its own SED so transferred that part of Bundamba that was in Ipswich back to Bundamba. In Ipswich's south, I transferred out its part of Ripley SA2 to my re-worked version of Bundamba, setting Ipswich's new southern boundary along the Cunningham Highway.

Overall, Ipswich is more compact than it was and I also believe its boundary is significantly stronger.

I propose this District retain the name Ipswich, though I did entertain the possibility of renaming it Ipswich Central to remove one instance of an SED and LGA having exactly the same name.

Bundamba:

Bundamba was outside current and projected enrolment quotas – and significantly so. It could lose between 4095 and 10,535 current and between 13,684 and 20,922 projected electors and still stay within quota. Given that Ipswich, Ipswich West / Jordan and Lockyer had already been assessed, Bundamba could only transfer electors to Inala or to its south in the area that Lockyer used to occupy.

After many hours of modelling different scenarios for Bundamba I decided that Bundamba should contract in its E and expand to its SW. The new Bundamba encircles Ipswich from its NE to its SW.

Its new boundary in detail starts on the Brisbane River; SE into Woogaroo Creek; W on the Ipswich Motorway (M2); SSW into Stuart St; SW following the Goodna – Redbank locality boundary and continuing to follow the boundary of SA1 #3129919 in a clockwise direction until it meets Kruger Pde. S, along Kruger Pde; continuing S as the road changes its name to Redbank Plains Rd, Keidges

Rd and Purser Rd until it meets Woogaroo Ck. SW on Woogaroo Creek until it meets the southern boundary of SA1 # 3130405, then E along that SA1 boundary until it meets the existing Bundamba – Lockyer SED boundary. Turning W, then S, following the existing Bundamba – Lockyer SED boundary; continuing in a westerly direction following the southern locality boundaries of the Ripley and Rosewood SA2's; N along Warrill Creek; E along the Cunningham Hwy; in a northerly direction along Bundamba Creek; briefly diverting from the Bundamba Creek to follow the Railway Line to the W of Ipswich Racecourse; until it crossed the Bundamba Creek, N of Brisbane Rd; then commencing in a westerly direction along Bundamba Creek; briefly E along Bremer River; N, along the Karalee – North Tivoli locality boundary; briefly W on the Warrego Hwy; N into Mount Crosby Rd and continuing N in a 'line in continuation' to the Brisbane River, then E along the Brisbane River to the starting point.

I propose this District retain the name Bundamba.

New Ipswich District:

The surplus electors from the new Bundamba plus the electors in the Greenbank SA2 that were surplus to Lockyer almost made for sufficient electors for a new District.

By adding electors from the current SED of Inala, and territory from Algester SED, that is in Ipswich LGA to the surplus above, I was able to create a new SED.

Whilst its current numbers are close to the average quota required, the anticipated growth will push this new District outside quota by 2022.

I propose to name this District Macalister in honour of Arthur Macalister, 2nd Premier of Queensland and a representative of the Ipswich area.

6. Northern Metropolitan: Ashgrove; Aspley; Brisbane Central; Clayfield; Everton; Ferny Grove; Indooroopilly; Kallangur; Moggill; Morayfield; Mount Coot-Tha; Murrumba; Nudgee; Pine Rivers; Redcliffe; Sandgate and Stafford.

With the addition of Bellmere from Pumicestone, and the division of Indooroopilly between its northern and southern halves either side of the Brisbane River, these 17 Districts had sufficient electors for 17.44 current and 17.24 projected Districts.

The large growth Districts were in the far north of this region (Murrumba and Morayfield) as well as Brisbane Central itself.

The large declines in enrolment were more to Brisbane's west; Indooroopilly, Ashgrove, Everton, Ferny Grove and Moggill all needed to have their numbers supplemented.

With my proposal to place the northern and southern halves of Indooroopilly in separate Districts and the fact that Districts adjoining Indooroopilly to its north all needed extra electors, I propose to abolish Indooroopilly altogether and use the electors from this District to supplement those Districts to its north.

Moggill:

Though Moggill was not outside either current or projected quotas, there were a fixed number of electors I was dealing with in this region, so it was important to get each District as close to the average as possible so there would be no last minute scrambling for numbers.

To those ends I propose that Moggill gain all of Fig Tree Pocket from Indooroopilly in addition to that part of Indooroopilly that is S of Jerrang St.

These gains put Moggill over quota so to compensate I propose it transfer to Mount Coot-Tha that part of Chapel Hill that is east of Chapel Hill Rd and north of Moggill Rd.

The net gain for Moggill is an extra 1213 current and 1281 projected electors.

I propose this District retain the name Moggill.

Indooroopilly:

Indooroopilly was significantly under quota, and on the north side of Brisbane River, shared electoral boundaries with 2 other Districts that also had projected enrolments well under quota; Moggill and Mount Coot-Tha.

With nearby Ashgrove, Everton and Ferny Grove also under projected quota there were insufficient electors remaining on the north side of the Brisbane River to transfer to Indooroopilly without having a significant downstream impact on the remaining metropolitan SED's N of the Brisbane River.

On the S side of the Brisbane River, Mount Ommaney and Sunnybank were both projected to be outside quota by 2022, also requiring additional electors to supplement their numbers.

In addition to the numerical considerations, I considered this part of the Brisbane River a strong potential electoral boundary.

Ultimately I felt it best to abolish Indooroopilly and distribute the electors to other surrounding Districts. In the process, I have established the Brisbane River as a constant electoral boundary all the way from its mouth, upstream to its junction with Lockyer Creek.

Mount Coot-Tha:

Like Moggill, Mount Coot-Tha was slightly under current quota and declining further over time.

With my proposal to abolish Indooroopilly, Mount Coot-Tha had to take the balance of the electors that were in Indooroopilly on the N side of the Brisbane River, which had not already been transferred to Moggill. With the suburb of Indooroopilly sharing a locality boundary with Mount Coot-Tha, merging electors from both Districts into one was not going to be an issue from a Community of Interests perspective.

This brought 16,646 current and 18,028 projected electors into Mount Coot-Tha, in addition to the 2285 current and 2317 projected electors gained from Moggill after its adjustments were completed.

To offset Mount Coot-Tha's gains in its SE, surplus electors in its E and NE will be transferred to Ashgrove and Brisbane Central.

I determined that the suburb of Petrie Terrace was a better fit with Brisbane Central than it was with Ashgrove. It shared the same postcode as Brisbane; 4000. Hale St and Musgrave Rd made for a clear electoral boundary.

Mount Coot-Tha's new boundary with Ashgrove is now proposed to run as follows: Starting in Mount Coot-Tha's NW; along The Gap – Mount Coot-Tha locality boundary; then continuing eastwards along the Bardon – Mount Coot-Tha locality boundary; continuing E along Gordon Rd; Simpsons Rd; Chiswick Rd; then in a NE direction back onto Simpsons Rd; E onto Macgregor Tce; S onto Boundary Rd; E along Baroona Rd; S into Cannington St; E into Thomas St; briefly S on Bayswater St; briefly SW onto Haig Rd; SE onto Torwood St; SSE into Eagle Tce and following Eagle Tce when it turns SW; SE following a line in continuation along Roy St; continuing ESE into Lang Pde to the Brisbane River.

I propose this District retain the name Mount Coot-Tha.

Ashgrove:

Following Mount Coot-Tha's lead, Ashgrove also needs to push south in its east to take the electors that were surplus to Mount Coot-Tha's requirements. The transfer in of 14,801 current and 16,550 projected electors put Ashgrove well over quota, so it had to transfer out electors in its north to Ferny Grove.

The part of the existing Ashgrove transferred to Ferny Grove is as follows: From the intersection of Settlement and Yarrabee Rd's, The Gap; SSE along Yarrabee Rd and following the southern locality boundary of Enoggera until it becomes Enoggera Creek; continuing in an easterly direction along Enoggera Creek until it turns S and is crossed by Ashgrove Ave; briefly E along Ashgrove Ave to Enoggera Rd.

I propose this District retain the name Ashgrove.

Brisbane Central:

Forecast to grow significantly, Brisbane Central could transfer out up to 5472 current and between 4949 and 12,187 projected electors to stay within quota.

With new boundaries for Ashgrove and Mount Coot-Tha to Brisbane Central's west already proposed, electors could only be transferred to Clayfield or Stafford.

After acquiring Petrie Terrace from Mount Coot-Tha, I propose that Brisbane Central's new northern boundary be brought south, back to Enoggera Creek and that all electors and territory north of Enoggera Creek be transferred out to the other 2 Districts.

The part of the existing Brisbane Central N of Enoggera Creek and E of Lutwyche Rd I propose to transfer to Clayfield.

The part of the existing Brisbane Central N of Enoggera Creek and W of Lutwyche Rd I propose to transfer to Stafford.

These transfers put Brisbane Central back within not only current quota but also projected quota as well - though only just in both instances.

I propose this District retain the name Brisbane Central.

Ferny Grove:

Like Everton and Pine Rivers to its north, Ferny Grove is a District of 2 distinctly different communities of interest: the more rural Samford Valley in its NW and the far more urban / metropolitan Ferny Grove, Arana Hills and Keperra in its SE.

Given the surplus of electors left over from Ashgrove, the opportunity to separate these communities of interests into separate SED's was one I decided to take.

I have therefore, transferred to Pine Rivers the Samford Valley SA2 and all other parts of the existing Ferny Grove to the NW of this SA2.

Ferny Grove's new western boundary runs along the western locality boundaries of Upper Kedron, Ferny Hills and Bunya to the South Pine River.

To get the numbers right, Ferny Grove also transfers to Everton a small portion of Arana Hills (and the part of Everton Hills that is accessed via Quandong Cres.) that is bounded by the Bunya locality boundary to the N; Bunya Rd to the W and S; and South Pine Rd to the S.

These transfers make Ferny Grove a far more urban District than the one that currently exists.

I propose this District retain the name Ferny Grove.

Everton:

As noted above, this District is split into 2 distinct populated areas with the Bunyaville Conservation Park running right through the middle.

From an enrolment perspective Everton was within quota so required little - if any - changes from that perspective.

As noted above in my proposal for Ferny Grove, Everton does gain that part of Arana Hills and Everton Hills N of Bunya Rd to keep Ferny Grove within current and projected quotas.

I also propose to transfer western parts of Apsley to unite the urban communities in the north and south of Everton. To achieve this I propose to continue Everton's eastern SED boundary further north along Trouts Rd; W along a road reserve marked as Althorp Rd; N along Beckett Rd; W along Albany Creek Rd to Everton's existing boundary with Aspley along Albany Creek.

This transfer puts Everton outside quota so I propose to transfer the locality of Eatons Hill to my new Pine Rivers district. This final transfer puts Everton back within current and projected quotas again.

I propose this District retain the name Everton.

Stafford:

Stafford had already gained parts of Brisbane Central that were N of Enoggera Creek and W of Lutwyche Rd, leaving Stafford within quota. However I decided that the "peninsula" of Stafford in its NE that was N of Hamilton Rd looked out of place. In the interests of consistency I determined to transfer that part of Stafford to Aspley.

Stafford's northern boundary has been strengthened as a result of this adjustment.

No further changes were required for this District.

I propose this District retain the name Stafford.

Clayfield:

Almost at the very top of projected quota, Clayfield had gained parts of Brisbane Central that were N of Enoggera Creek and E of Lutwyche Rd, tipping it above projected quota.

Not only did Clayfield have surplus electors to transfer out, but its existing boundary with Nudgee through Nundah, Wavell Heights and Kedron left a lot to be desired.

To address Clayfield's surplus electors and clean up the lines of the SED boundary I changed the Clayfield - Nudgee SED boundary as follows: The eastern part of Nundah currently in the District of Nudgee is transferred to Clayfield. The parts of Nundah, Wavell Heights and Kedron currently in the District of Clayfield are transferred to Nudgee.

Clayfield's new northern boundary with Nudgee now follows Kedron Brook E of Lutwyche Rd until it is crossed by the Rail Line just S of Toombul Station. From there it follows the Rail Line NE until that meets the Nundah locality boundary; it then follows the locality boundary E until it meets the existing Clayfield - Nudgee SED boundary at the intersection of Toombul Rd and Southern Cross Way.

I propose this District retain the name Clayfield.

Nudgee:

Having been lumped with the surplus electors from Clayfield, Nudgee needed to reduce its current and projected enrolments to return to quota.

With Sandgate to Nudgee's north well within enrolment quotas there was a good argument to leave the existing Sandgate unchanged. This meant Nudgee could only transfer surplus electors to Aspley.

With the suburbs of Geebung and Zillmere sharing locality boundaries with the suburb of Aspley, the Community of Interest aspect should not suffer with the transfer of Geebung and Zillmere to Aspley - for either District. I therefore propose to transfer the Geebung and Zillmere SA2's from Nudgee to Aspley.

The SA2 boundary differs from the locality boundaries and actually follows Mullers Rd S from Beams Rd; E into Zillmere Rd; S into Bilsen Rd; SE along the Rail Line; W along Downfall Creek back to Gympie Rd.

I propose this District retain the name Nudgee.

Aspley:

With gains from Nudgee and Stafford in its E and S respectively; losses to Everton in its SW, Aspley was near the top end of current quota. To get Aspley back to more middle-ground I decided to transfer out the northern 'neck' of Aspley to what would become Kallangur. I set Aspley's northern boundary to run along Strathpine Rd from the South Pine River and continue across the Gympie Arterial Rd along Hoyland St to the Bald Hills Ck.

I propose this District retain the name Aspley.

Pine Rivers:

Pine Rivers is yet another District divided by its urban eastern and more regional western communities of interest.

The opportunity to unite these Hills-based communities to the west of Strathpine from Ocean View in the north to Camp Mountain and Jollys Lookout in the south into a single District was an opportunity too good to miss.

Even though my proposed version of Pine Rivers differs significantly from the existing version; the name Pine Rivers is, I'd suggest, a better fit for the version I propose. My proposed version incorporates the South Pine River from its source around Mount Nebo all the way to the Strathpine Locality boundary. Similarly, the North Pine River is incorporated into this proposed District all the way from its source around Mount Pleasant, through Lake Samsonvale until it runs through the more urbanised areas of Lawnton and Petrie.

Some parts of urban Strathpine had to be incorporated into this District from a numerical perspective, but overall, I believe it encompasses all of the south-western elevated parts of Moreton Bay Council into a single District, in a manner far better than the existing versions of Ferny Grove, Everton, Pine Rivers and Kallangur do.

The split of the existing Pine Rivers SED is as follows: From where the Rail Line crosses the South Pine River west of Bald Hills Station; continuing generally NW along the Rail Line until it is crossed by Samsonvale Rd; generally W along Samsonvale Rd until it crosses Four Mile Creek; SW along Four Mile Creek until it is crossed by Old North Rd at the intersection of the Warner - Strathpine - Bray Park locality boundaries; NW along Old North Rd and Youngs Crossing Rd to the North Pine River.

I propose this District retain the name Pine Rivers.

Kallangur:

High projected growth figures are now starting to have an impact as the creation of a new SED somewhere between the Caboolture and the North Pine River becomes imminent.

Pushed south by the electors that were surplus to Aspley and Pine Rivers, Kallangur consolidates its crossing of the North Pine River, incorporating communities on both sides of the river, united by road and rail links.

To compensate for its push south, it must transfer out much of its territory to its north and west.

The existing Kallangur is now split between 5 SED's as follows:

In Kallangur's north, its portion of the locality of Burpengary is transferred to the new District of Fysh.

Kallangur's portion of the locality of Narangba and the populated part of the locality of Dakabin I have transferred to Morayfield. Of minor importance is that the SA1 boundary of SA1 # 3138810 doesn't follow the Dakabin - Kallangur locality boundary, however, the part of this SA1 that is in Dakabin is unpopulated.

To the west, the localities of Whiteside and Kurwongbah are transferred to Pine Rivers.

Finally, to the east, the locality of Murrumba Downs is transferred to Murrumba.

I propose this District retain the name Kallangur.

Redcliffe:

Before turning my attention to the 2 Districts that were projected to be well outside quota – Morayfield and Murrumba – I thought I would assess Redcliffe first as it could only exchange electors with Murrumba should it need to do so.

Whilst Redcliffe is at the higher end of current quota now, its small size and limited growth opportunities mean it will be very close to average enrolment by 2022.

I propose no changes to this District and that it retain its name of Redcliffe.

Murrumba:

Murrumba is a misnomer for this District. The locality of Murrumba actually sits on the western side of Lake Wivenhoe. To make matters worse, the Murrumba Downs locality resides wholly within the Kallangur SED. So why this District is currently named Murrumba, I'm not sure.

Murrumba's projected enrolment was also the 3rd highest in the State behind Coomera and Bundamba.

So to address the naming issue I transferred the Murrumba Downs locality from Kallangur to Murrumba. Murrumba would have to lose electors to its north - and a lot of them!

Apart from the acquisition of Murrumba Downs, Murrumba retains the Bruce Hwy as its western boundary. Its new northern boundary leaves the Bruce Hwy at exit 138 and turns eastwards on Boundary Rd, then continuing in a generally easterly direction following Deception Bay's southern and eastern locality boundaries until it runs into Deception Bay, the water-based version!

I propose this District retain the Murrumba.

Morayfield:

Morayfield had gained Bellmere from Pumicestone as well as the balance of Rocksberg from Pine Rivers.

I also decided to unite the part of the locality of Narangba that was W of the Bruce Hwy in Morayfield. This meant Morayfield needed to lose electors to the new District in its east. To achieve this I transferred the SA2's of Morayfield - East and Burpengary in their entirety to the new District of Fysh.

The new eastern boundary of Morayfield now follows the Rail Line from where it crosses the Caboolture River southwards, leaving the Rail Line and turning W along Rosetta Rd; following the Burpengary locality boundary in an anti-clockwise direction until that locality boundary re-joins the Rail Line at the end of Carin Court.

I propose this District retain the name Morayfield.

New Outer North District replacing Indooroopilly:

This left the north-east corner of this region with sufficient electors for a new District based around Burpengary and Deception Bay.

It neatly contains the 4 SA2's of Burpengary; Burpengary - East; Deception Bay and Morayfield - East.

I propose to name this District Fysh in honour of Sir W. Hudson Fysh, QANTAS co-founder.

7. Southern Metropolitan: Algester; Bulimba; Capalaba; Chatsworth; Cleveland; Greenslopes; Inala; Logan; Lytton; Mansfield; Mount Ommaney; Redlands; South Brisbane; Springwood; Stretton; Sunnybank; Waterford; Woodridge and Yeerongpilly.

With the addition of the part of Indooroopilly S of the Brisbane River and loss of Inala's part of Ipswich LGA to the new Division of Macalister, these 19 Districts had sufficient electors for 19.45 current Districts but declining to just 18.88 Districts based on projected enrolments.

Only 1 District could be categorised as a large growth District – South Brisbane - though both Redlands and Waterford in the outer SE were near the upper end of projected quotas.

The under projected quota Districts of Mansfield, Mount Ommaney and Sunnybank will need some creative adjustments to get all back within quota by 2022.

The Pacific Motorway is used as a boundary for many Districts and marks a clear line of distinction between the south-eastern Districts and the southern and south-western Districts.

District numbers to the SE seem to balance themselves out overall; it may be that many Districts in the S & SW are deliberately set with a projected enrolment below quota. There was also an opportunity, to align Redland City's LGA boundaries with the SED boundaries of Redlands and Mansfield. This left Redland City neatly represented by the 3 SED's of Capalaba, Cleveland and Redlands.

The electors that are surplus to Beaudesert will need to be incorporated into this part of my proposal to ensure cohesive District boundaries are proposed for the Districts in Logan City LGA.

Lytton:

I decided to start in the far NE corner of the suburbs S of the Brisbane River, so Lytton was the first District to assess. Lytton was within quota and for the most part its boundaries were strong. However, there was an opportunity to strengthen its boundary with Chatsworth. Rather than use Fleming Rd as the boundary I propose to continue a little further up Bulimba Creek and follow an offshoot (which also appears to be named Bulimba Creek) which runs in a generally SE direction starting from the north of Carmichael Park until it is crossed by Wynnum Rd.

I propose this District retain the name Lytton.

Table of Transfers: Lytton

District	Component	Proposed	Projected
Lytton		**33,011**	**34,023**
From Chatsworth	Tingalpa SA1 #3101818 - balance	36	40
New Total		**33,047**	**34,063**
Variation		**2.62%**	**-5.87%**

Bulimba:

Whilst Bulimba was within quotas and its western, northern and eastern boundaries were strong, I felt its southern boundary was a little untidy and could do with some re-alignment.

To that extent I propose that Bulimba's southern boundary exits Creek Rd and runs along Stanley Rd rather than the current Darcy Rd, at the western end of Stanley Rd the boundary turns briefly S onto Wiles St; W along Perth St; briefly N into Nestor Lane; W along McIlwraith Av to Bennetts Rd where it re-unites with the existing Bulimba - Greenslopes SED boundary.

From an enrolment perspective, Bulimba gains less than 100 current and projected electors, but from a southern boundary continuity perspective, I believe this proposal delivers a far neater southern boundary than the one that currently exists.

I propose this District retain the name Bulimba.

Table of Transfers: Bulimba

District	Component	Proposed	Projected
Bulimba		**34,546**	**36,038**
From Chatsworth	Camp Hill SA2 - part	713	737
From Chatsworth	Carina SA2 - part	1,634	1,631

To Greenslopes	Norman Park SA2 - part	-596	-608
New Total		**34,617**	**36,105**
Variation		**7.49%**	**-0.23%**

Greenslopes:

Greenslopes was projected to be at the lower end of quota by 2022. The re-alignment of Bulimba's southern boundary brought 2276 current and 2301 projected electors into Greenslopes. Though no further adjustments to this District were necessary, the District of Mansfield immediately to Greenslopes' SE was projected to be outside quota by 2022. Electors from the over-quota South Brisbane needed to be transferred into Greenslopes. Greenslopes would in turn transfer its surplus electors in its SE to Mansfield.

I propose South Brisbane transfers all of its parts of the SA2's of Coorparoo and Greenslopes to Greenslopes, re-uniting almost the entire Greenslopes locality in the Greenslopes SED.

In turn Greenslopes transfers out to Mansfield the parts of Mount Gravatt, Mount Gravatt East and Holland Park that are SE of Nursery Rd and E of Logan Rd.

With this District regaining the balance of the locality of Greenslopes from South Brisbane, I propose it retain the name Greenslopes.

Table of Transfers: Greenslopes

New Total		**35,014**	**37,099**
Variation		**8.73%**	**2.52%**

Mansfield:

The gains Mansfield receives from Greenslopes put Mansfield back within projected quota. I also took this opportunity to re-align Mansfield's eastern boundary, and bring it slightly west to follow the Brisbane – Redland City LGA boundary along Tingalpa and Buhot Creeks. No further changes were necessary for this District.

I propose this District retain the name Mansfield.

Table of Transfers: Mansfield

New Total		**33,835**	**36,243**
Variation		**5.06%**	**0.15%**

Chatsworth:

The last of the Brisbane City LGA Districts east of the Pacific Motorway had lost just over 2000 electors to both Lytton and Bulimba as detailed above. Despite these transfers this District was still within current and projected quotas. I felt no further changes were necessary.

I propose this District retain the name Chatsworth.

Table of Transfers: Chatsworth

New Total		**32,311**	**34,317**
Variation		**0.33%**	**-5.17%**

Capalaba and Cleveland:

With projected quotas for these Districts running at about 5% under and 5% over respectively, I felt there was an opportunity to re-align the boundaries between these 2 Districts.

I propose the following boundary change between the 2: From the existing boundary along Collingwood Rd in Birkdale; continuing E along Collingwood Rd; S along Pitt Rd; E along Nelson Rd; in a southerly direction along Main Rd; E into Old Cleveland Rd East until it crosses Hilliards Creek. Then following Hilliards Creek in a westerly then southerly direction until it re-joins the existing Capalaba – Cleveland SED boundary where the Alexandra Hills, Ormiston and Wellington Point locality boundaries intersect.

I propose these Districts retain their names Capalaba and Cleveland, respectively.

New Total		**32,796**	**35,715**
Variation		**1.84%**	**-1.31%**

Redlands:

As detailed under Mansfield, Redlands gains the part of the locality of Sheldon that was currently in Mansfield. In its south, Redlands transfers out its part of the localities of Cornubia and Carbrook to Springwood, aligning Redlands SED boundary along the Redland City LGA boundary.

This puts Redlands well within current and projected quotas. I propose no further changes to Redlands.

I propose this District retain the name Redlands.

Table of Transfers: Redlands

District	Component	Proposed	Projected
Redlands		**34,570**	**39,485**

New Total		**33,112**	**37,659**
Variation		**2.82%**	**4.06%**

Before I assess Springwood, I intend to complete the rest of the SED's based in the Brisbane LGA.

South Brisbane:

Well over projected enrolment quota, the electors already transferred from South Brisbane to Greenslopes took South Brisbane below the current quota.

To address this I made a very small change to South Brisbane's boundary with Yeerongpilly in the suburb of Annerley. The change was made between Annerley Rd and the Rail Line – moving the boundary one street south from Fairfield St to Cronin St.

I propose this District retain the name South Brisbane.

Table of Transfers: South Brisbane

New Total		**29,089**	**38,309**
Variation		**-9.67%**	**5.86%**

Yeerongpilly:

Yeerongpilly's proximity to what was left of Indooroopilly south of the Brisbane River meant it needed to acquire at least part of the old Indooroopilly.

This has caused Yeerongpilly to generally move much closer to the Brisbane River, losing much of Rocklea, Salisbury, Nathan and its part of MacGregor in the process.

Yeerongpilly's new boundary commences from where the western end of Long St West meets the Brisbane River, and then continues east along Long St; S into Oxley Creek; eastwards along Moolabin Creek then following the Rocklea – Yeerongpilly locality boundary until it meets Muriel Ave. Continuing E along Muriel Ave and Evans Rd; N into Blomfield St; E into Fengen Dr and continuing E into Davey St to the Salisbury – Moorooka locality boundary. From there, generally following the Salisbury locality boundary E and N around Toohey Forest Park, continuing E along the northern locality boundary of Nathan to Yeerongpilly's existing SED boundary on the M3.

I propose this District retain the name Yeerongpilly.

Sunnybank:

Sunnybank was projected to be outside quota by 2022 and needed to gain electors. The transfer of Yeerongpilly's surplus electors allowed Sunnybank to extend N and in turn contract in its W.

Sunnybank's new boundary with Yeerongpilly has been described above. Sunnybank's new boundary with Inala runs from where Learoyd Rd crosses Oxley Creek in Willawong and runs W, then N along Oxley Creek; N into Beatty Rd; E along Mortimer Rd; N into Beaudesert Rd to its intersection with Muriel Av and Evans Rd.

I propose this District retain the name Sunnybank.

Stretton:

Stretton was within both current and projected quotas and had reasonably strong boundaries – especially in its east.

I propose no changes to this District and that it retain its name of Stretton.

Mount Ommaney:

Mount Ommaney had to gain the balance of Indooroopilly that was S of the Brisbane River and surplus to Yeerongpilly's requirements. This put Mount Ommaney outside quota. With a strong northern and western boundary (Brisbane River); and Oxley Creek making up much of Mount Ommaney's eastern boundary, it could really only transfer out electors to its south.

I decided to start from Mount Ommaney's boundary with Inala along the Rail Line and decided to continue this boundary further east along the Rail Line; Continuing E along Englefield Rd; briefly SSE onto Oxley Station Rd, then briefly NNE along Oxley Rd before turning ESE along the southern boundary of the Oxley Golf Course to Oxley Creek. Finally, in a generally northerly direction along Oxley Creek until it meets a line in continuation east of Long St East.

I propose this District retain the name Mount Ommaney.

Inala:

As detailed when I created the new District of Macalister, Inala had lost its Ipswich LGA electors to the new District of Macalister. To offset these losses in its west, Inala pushed east, indirectly gaining from the electors that were left over from the abolished Indooroopilly.

Inala's new eastern boundary continues along the Rail Line east of Darra Station; continuing east along Englefield Rd, briefly SSE onto Oxley Station Rd, then briefly NNE along Oxley Rd before turning ESE along the southern boundary of the Oxley Golf Course to Oxley Creek; generally north-eastwards along Oxley Creek then following the Rocklea – Yeerongpilly locality boundary to Sherwood Rd; E along Sherwood Rd, Muriel Ave and Evans Rd; S into Beaudesert Rd; W into Mortimer Rd; S into Beatty Rd; W along Bowhill Rd; S along Blunder Creek; W along the Durack – Doolandella locality boundary back to the existing Inala SED boundary on Blunder Rd.

I propose this District retain the name Inala.

Algester:

With all the boundary changes happening to Algester's S, W and N, Algester has escaped almost intact. It would have been hypocritical of me not to transfer the unpopulated part of Camira that was a part of Ipswich LGA west of the M5 after going to the effort of identifying it on page 12 of this submission.

Aside from that logical boundary transfer, Algester remains unchanged from the number of electors contained with the District.

I propose this District retain the name Algester.

Now on to the Logan City SED's:

Springwood:

Having gained the parts of Cornubia and Carbrook from Redlands, Springwood was near the upper limits of the current enrolment quota. But with numbers for another 16 Districts after this one still to process I needed to keep current enrolment numbers slightly under average. So I determined that Springwood's new boundary should leave the M1 and head in an easterly direction along Bryants Rd; continuing east along Beenleigh - Redland Bay Rd until it crosses California Creek, then in a southerly direction along California Creek until it meets the Logan River.

I propose this District retain the name Springwood

Though I had planned to assess Woodridge next, the District of Logan sat to Woodridge's SW, and Logan bordered Beaudesert which had surplus electors that could only really be transferred to Logan. So I had to skip ahead and assess Beaudesert first, even though I had originally planned to assess this District when I assessed the Gold Coast Districts.

Beaudesert:

Beaudesert was already outside quota and projected to be 31.5% over projected quota by 2022. In addition, I had already added an extra 1000+ Scenic Rim LGA electors to Beaudesert from my assessment of Lockyer SED above. After crunching the numbers, Beaudesert loses the entire locality of Jimboomba which must be transferred to Logan.

Beaudesert's new SED boundary is simple: In its E, S and W it follows the Scenic Rim LGA boundary - as it does for much of its north. The only remaining Logan LGA territory required for Beaudesert is as follows: Where the Logan River turns into Logan LGA at the western end of the Jimboomba - Cedar Grove locality boundary; continue in an easterly direction along the Logan River; E again into Scrubby Creek; following Scrubby Creek, then the Cedar Vale locality boundary in a clockwise direction until it meets the Scenic Rim LGA boundary at the intersection of Barnes Rd and Trewin Rd South.

I propose this District retain the name Beaudesert

Logan:

Logan had to push south to take Jimboomba and the rest of the electors that were surplus to Beaudesert. This left Logan severely over quota and further divided between its more urban N and more regional S. This was exactly the kind of 'urban versus regional' example that I detailed on Page 17 of this submission. I determined that Logan should have its new northern boundary run along Green and Bumstead Roads; physically and logically separating these 2 communities of interest.

This put Logan under quota so I decided to push Logan eastwards, taking parts of Logan City LGA from the also-projected-to-be-over-quota Albert. Logan's new eastern boundary now continues to follow the Albert River north, leaving the Albert River at Windaroo Creek; in a westerly direction

along Windaroo Creek; N along Beaudesert - Beenleigh Rd then W along the existing Albert - Waterford SED boundary which doubles as the Beenleigh - Bahrs Scrub locality boundary.

These transfers would place Logan at the lower end of quota now, but the projected growth around Jimboomba over the next 6 years would put Logan outside quota by 2022.

I propose this District retain the name Logan

Woodridge:

With 13,847 current and 14,227 projected electors released from Logan to be divided between Waterford and Woodridge both Districts were going to face some serious re-drawing. Getting the numbers right for both Districts turned out to be a challenge, taking more than one attempt to complete successfully.

Ultimately Woodridge's new southern boundary would be Browns Plains Rd - from where it is crossed by the Mount Lindesay Hwy in its west, all the way to its eastern end at Chambers Flat Rd.

Woodridge would gain the parts of the existing Logan that were N of Browns Plains Rd and transfer out to Waterford the parts that are S of Browns Plains Rd.

These transfers left Woodridge slightly under quota, so I decided to unite most of Slacks Creek in Woodridge, transferring that part of Slacks Creek that was N of Queens Rd and W of Loganlea Rd from Waterford to Woodridge.

I propose this District retain the name Woodridge

Waterford:

With gains from Logan and a net gain of electors in its transfer with Woodridge, Waterford had to shed numbers in its east to get back within quota.

Waterford transferred out the SA2's of Beenleigh, Edens Landing - Holmview, Loganholme - Tanah Merah and the part of Bethania - Waterford that was north of the Brisbane - Beenleigh Rd and Logan River Road to the new District of Oodgeroo which I correctly nominated would be required in the Beenleigh area in my initial assessment.

New Beenleigh-based District:

The surplus electors from Springwood and Waterford equalled two-thirds of a new District.

By adding Mount Warren Park SA2 from Albert and Eagleby SA2 from Coomera, there were sufficient electors for the third new District to be created.

As detailed in my summary above, I propose to name this District Oodgeroo in honour of Kath Walker AKA Noonuccal Oodgeroo. The decision to suggest this name be used this close to the Stradbroke Islands is no coincidence.

8. Gold Coast and Hinterland: Albert; Beaudesert; Broadwater; Burleigh; Coomera; Currumbin; Gaven; Mermaid Beach; Mudgeeraba; Southport and Surfers Paradise.

As noted above I had originally intended to assess Beaudesert in this region, but it was better assessed when it was. This left only 10 current Districts with sufficient electors for 11 new Districts.

My intention was originally to approach the Gold Coast assessing Districts from the NSW border running north, but given that both Albert and Coomera had already transferred electors to the Districts of Logan and Oodgeroo it was just as easy to commence my final region with these 2 Districts and work south.

The Pacific Motorway (M1) appears to be a logical District boundary to be applied wherever possible. And though I compromised it for my proposed District of Oodgeroo, I thought it could be better utilised than it currently is further south towards the NSW border.

Albert:

Albert was over quota and projected to remain so. With the loss of its NW corner to Logan and Oodgeroo Districts, Albert had fallen to marginally below the lower end of current tolerance.

To get Albert back within quota my first action was to unite the entire locality of Wongawallan in Albert. Whilst this united the locality in Albert it still left me short of the minimum number of electors required. The rest of Albert's southern boundary with Gaven is strong and its eastern boundary with Coomera even stronger. After some deliberation and analysis, I decided to keep my transfers to Albert in the west of Gaven and also transfer the locality of Guanaba to Albert, though I have taken the whole SA1# 3124105 including the part of the locality of Clagiraba that is contained within that SA1. The difference is only 9 properties and about 7 houses.

Coomera:

Projected to be the fastest growing District in Queensland - based on current boundaries - over the next 6 years, Coomera could only lose electors. Though Coomera was likely to be in a similar situation to my other proposed Districts like Logan - even with the current enrolment figure at the bottom end of acceptable quota, this District is likely to exceed projected quota by 2022.

In its north, Coomera had already transferred the Eagleby SA2 to the new District of Oodgeroo. In its south, much of Coomera's southern boundary was strong - Helensvale and Hope Island with their various waterways marking a logical southern boundary.

However Coomera had to lose electors, and after some consideration, the best solution I could find was to split the locality of Helensvale to meet numerical requirements.

The part of Helensvale S of the Gold Coast Hwy will transfer to the new Gold Coast District which I have proposed be named Bonney. The part of Helensvale bounded by the Gold Coast Hwy to the S; the Gold Coast Rail Line to the W; Hope Island Rd and the Helensvale Locality boundary (Saltwater Creek) to the N will transfer to Broadwater.

Some assumptions on precise numbers have been made here as SA1 #3125211 had to be split in order to propose an easily identifiable new boundary.

These transfers put Coomera at the lower end of current quota but still expected to be 25% over projected quota by 2022. This is a big improvement on the projected +60%, based on current boundaries.

I propose this District retain the name Coomera

Broadwater:

With my proposal to make the M1 and SED boundary as far south as possible, I would initially concentrate on the Districts E of the M1. Broadwater was the first of these Districts I assessed.

Broadwater was already near the upper end of current and projected quotas. The transfer of the surplus electors from Coomera put Broadwater over quota, so it would have to lose some electors in

its south. I decided that Broadwater should transfer the balance of Arundel to my new District of Bonney, and a significant portion of Labrador is to be transferred to Southport. The only part of Labrador that needs to remain in Broadwater for numeric compliance is the part of Labrador bordered by Government Rd to the W and Whiting St to the S.

I propose this District retain the name Broadwater

Southport:

Yet another Gold Coast District near the top of current quota and projected to be over quota by 2022.

The transfer of surplus electors from Broadwater didn't help its cause. However, it was time to dramatically re-draw Southport's boundary and commence creating the Gold Coast's new SED in conjunction with these elector movements.

The changes to Southport are as follows: It gains the majority of the locality of Labrador from Broadwater; transfers the localities of Arundel, Parkwood and Molendinar to the new Bonney District; transfers the part of Ashmore W of Currumburra Rd to Bonney; gains the balance of the locality of Southport from Surfers Paradise SED. It also gains the part of the locality of Ashmore that is E of Yangoora Cres and Warrungen Way from Surfers Paradise.

With all of the locality of Southport now re-united in Southport SED, I propose this District retain the name Southport

Surfers Paradise:

Having lost the balance of Southport and part of Ashmore to Southport SED in its N; the balance of Ashmore and the part of Benowa NW of Ross St to Bonney in its W, Surfers Paradise had to make some gains in its S. To get Surfers Paradise back within current and projected quotas I simply transferred the entire locality of Mermaid Waters from Mermaid Beach to Surfers Paradise.

From an aesthetics perspective it could be argued as to whether I should have chosen to simply continue the existing Surfers Paradise - Mermaid Beach SED boundary further W from Margaret Ave along the Nerang - Broadbeach Rd and leave the Pacific Fair Shopping Centre in Mermaid Beach. From a numerical perspective, it makes no difference to elector numbers either way.

If I was drawing the boundaries myself, I would propose - for ease of identification (that KISS principle, again) - that the SED boundary follow the road.

I propose this District retain the name Surfers Paradise

New Gold Coast District:

I propose to situate the new Gold Coast District E of the M1 and inland. Its western boundary will be the M1; its northern boundary will be the Gold Coast Hwy; in its E, its boundary runs down Olsen Ave, Currumburra Rd, briefly W on Cotlew St; S into Yangoora Cres and continuing S on Warrungen Way; briefly E along Ashmore Rd; SSW onto Ross St; E along the Nerang River; S into an un-named watercourse that doubles as the Carrara - Broadbeach Waters locality boundary; E, following the Carrara locality boundary along Manchester Rd and Hoy St; continuing along the Carrara locality boundary W into Gooding Dr and continuing W as it also becomes known as the Gold Coast - Springbrook Rd; NW, following the Carrara - Merrimac locality boundary in an anti-clockwise direction to the M1.

Again, numbers are assumed as my proposed boundary splits 3 x SA1's between SED's.

I propose this new District be named Bonney in honour of Maude Rose "Lores" Bonney, AM MBE

Now I was commencing to alter the proposed Districts west of the M1, I needed to ensure my numbers worked out for the remaining 4 Districts.

Gaven:

Having lost territory and electors in its N to Albert and all of its territory and electors E of the M1 to Bonney; Gaven was short of numbers and needed to make some gains. I decided to push Gaven S, taking all the western part of Mudgeeraba all the way to the NSW border. Gaven acquires the localities of Gilston, Advancetown; Neranwood (S of the Gold Coast - Springbrook Rd); Austinville and Springbrook and all localities west of those localities in the Gold Coast City LGA.

I propose this District retain the name Gaven, though there was a temptation to rename it to Nerang given that it now contains the geographical feature of the Nerang River all the way from Natural Bridge until it crosses the M1 in the Nerang locality.

Mermaid Beach:

Mermaid Beach had already lost the locality of Broadbeach Waters to Surfers Paradise. In its west, the continuation of the M1 as an SED boundary meant that the parts of Merrimac and Robina currently in Mudgeeraba had to be transferred to Mermaid Beach as the adjoining SED on the eastern side of the M1.

This left Mermaid Beach over quota so it transferred to Burleigh the entire locality of Varsity Lakes in addition to the SE corner of Robina S of Cottesloe Dr and E of University Dr including Bond University.

I propose this District retain the name Mermaid Beach.

Burleigh:

With my proposal to keep the M1 as an SED boundary, Burleigh had to transfer out to Mudgeeraba all electors W of the M1. However, after incorporating the gains of Varsity Lakes and Bond University from Mermaid Beach, Burleigh was still over quota.

To get Burleigh back within quota it transfers to Currumbin the part of Palm Beach that is south of Nineteenth Ave.

I propose this District retain the name Burleigh.

Mudgeeraba:

Mudgeeraba had already provided electors to Bonney, Gaven and Mermaid Beach to get them within quota. It had gained electors on the W side of the M1 from Burleigh but was still under quota.

In my bid to make Currumbin an "E of the M1" District, I transferred the balance of the Currumbin Valley - Tallebudgera SA2 into Mudgeeraba and had to split the locality of Elanora between Currumbin and Mudgeeraba to get the numbers to balance.

With Nineteenth Avenue already the boundary between Currumbin and Burleigh, I decided to continue using Nineteenth Avenue on the W side of the M1 to separate Currumbin and Mudgeeraba. As such the proposed boundary continues along Nineteenth Ave in Elanora until it reaches Gunieas Creek Rd, then W onto Gunieas Creek Rd, S onto Simpsons Rd and following the Currumbin Waters locality boundary all the way to the NSW border.

I propose this District retain the name Mudgeeraba.

Currumbin:

Despite my efforts to maintain the M1 as an SED boundary all the way to the NSW border, enrolment numbers would not allow it. So Currumbin is the only Gold Coast District to cross the M1 south of my proposed District of Oodgeroo in the Beenleigh area.

Being at the higher end of current and projected quota Currumbin lost as much territory as it could W of the M1 and made a small gain from Burleigh, increasing its portion of the locality of Palm Beach.

Currumbin only shares boundaries with Mudgeeraba and Burleigh, and these have been detailed above.

I propose this District retain the name Currumbin.

Breakdown of Proposed enrolment variances

Current Enrolment variances	
5.00% - 9.99% below quota	16
0.01% - 4.99% below quota	21
0.00% - 4.99% above quota	28
5.00% - 9.99% above quota	28
Outside +/- 10% of quota	0

Projected Enrolment variances	
5.00% - 9.99% below quota	16
0.01% - 4.99% below quota	32
0.00% - 4.99% above quota	30
5.00% - 9.99% above quota	11
10% + above quota	4

For both my proposed and projected enrolments, the majority of Districts fall within +/-5% of average quota: 49 out of 93 current; 62 out of 93 projected.

LGA – SED Duplications removed

As I identified on Page 15 of this document, there are currently 23 duplications of SED and LGA names.

My proposal has removed the following 4 LGA – SED duplications:

- Cook Shire – Cook
- Ipswich City – Ipswich West
- Mount Isa City – Mount Isa
- Toowoomba Regional – Toowoomba South

This changes the percentage of LGA – SED duplications from 25.8% (23 out of 89 Districts) to 20.4% (19 out of 93 Districts)

Electors transferred between Districts

My proposal transfers 624,232 current electors from their existing District to another District.

This equates to 20.8% of all current electors in the State.

It should be remembered, that a theoretical minimum of 161,379 (5.4%) current electors must change Districts due to:

- Four new Districts being created with an average enrolment of 32,204 electors per District (= 128,816 electors)
- A number of Districts having current enrolment numbers greater than +10% above quota (= another 32,563 electors)

In addition, preventing as many Districts as possible from being outside +/-10% of projected quota forced the movement of an additional 119,690 projected electors between Districts.

Closing comments

Firstly, I want to thank the ECQ for giving those of us with a passion for Electoral Redistributions the better part of 2 months to prepare our submissions and proposals.

The Commonwealth and most other States only seem to allow around a 4 week period – which would have been insufficient time for a Redistribution of this complexity – to prepare and lodge our proposals.

For those of us who do this in an honorary capacity, and still have to find time to juggle work, home, family and an Electoral Redistribution; the extra 4 weeks is a bonus.

From my perspective, it has allowed me to take a more considered approach on my proposal, rather than having to rush and risk significant calculation errors.

I believe my submission fulfils the requirements of Sections 45 and 46(1) of The Act.

Overall, I am satisfied that the new boundaries I have proposed are strong; the communities of interests of my proposed Districts are strong; the ways of communication and travel are strong; many of the current (2008) electoral boundaries remain in place and only 4 of my 93 proposed Districts are projected to be outside +/-10% of quota by 2022.

I encourage the QRC to consider my proposal when they formulate their draft boundaries. Not only the boundaries I have proposed, but also the names of the Electoral Districts I have proposed.

I would like to re-iterate my argument for naming Districts after prominent people who are not otherwise honoured by significant localities or LGA's. Should the QRC adopt my new proposed District names it will get people talking, it will get people thinking, it will get people researching these names and the people behind them to find out what they did that has allowed them to have a State Electoral District named in their honour.

Creating new interest in Electoral District names amongst the general public can only have positives for the electoral process and the electoral commission.

I should note that even with the additional 4 weeks to complete my proposal, time has not allowed me to perform any assessment of the political impact that my changes would make – and nor should it. I am only too aware that both the ALP and LNP will lodge submissions that will suit their political agendas – they have both the time and resources to do so. If any part of my proposal matches theirs then that is purely by co-incidence and not any attempt on my behalf to politicise the drawing of new electoral boundaries.

I know full well that mine will not be the only comprehensive proposal submitted by a private individual. I look forward to reviewing the other submissions received and commenting on them once the opportunity arises for me to do so.

Finally, I wish the QRC well in their deliberations. Their task will not be an easy one.

SA1 District Maps Cover Sheet

The following pages are printed copies of the SA1 District Maps as published by the ECQ on their website.

The purpose of providing these Maps is to give the reader of my proposal a better understanding of the physical impact of my proposed boundary changes rather than just relying on words.

These Maps show the following changes:

- Proposed changes to electoral boundaries including the Districts and areas that these changes affect.
- Any changes to existing District Names
- The names of proposed new Districts

Please note the following exclusions:

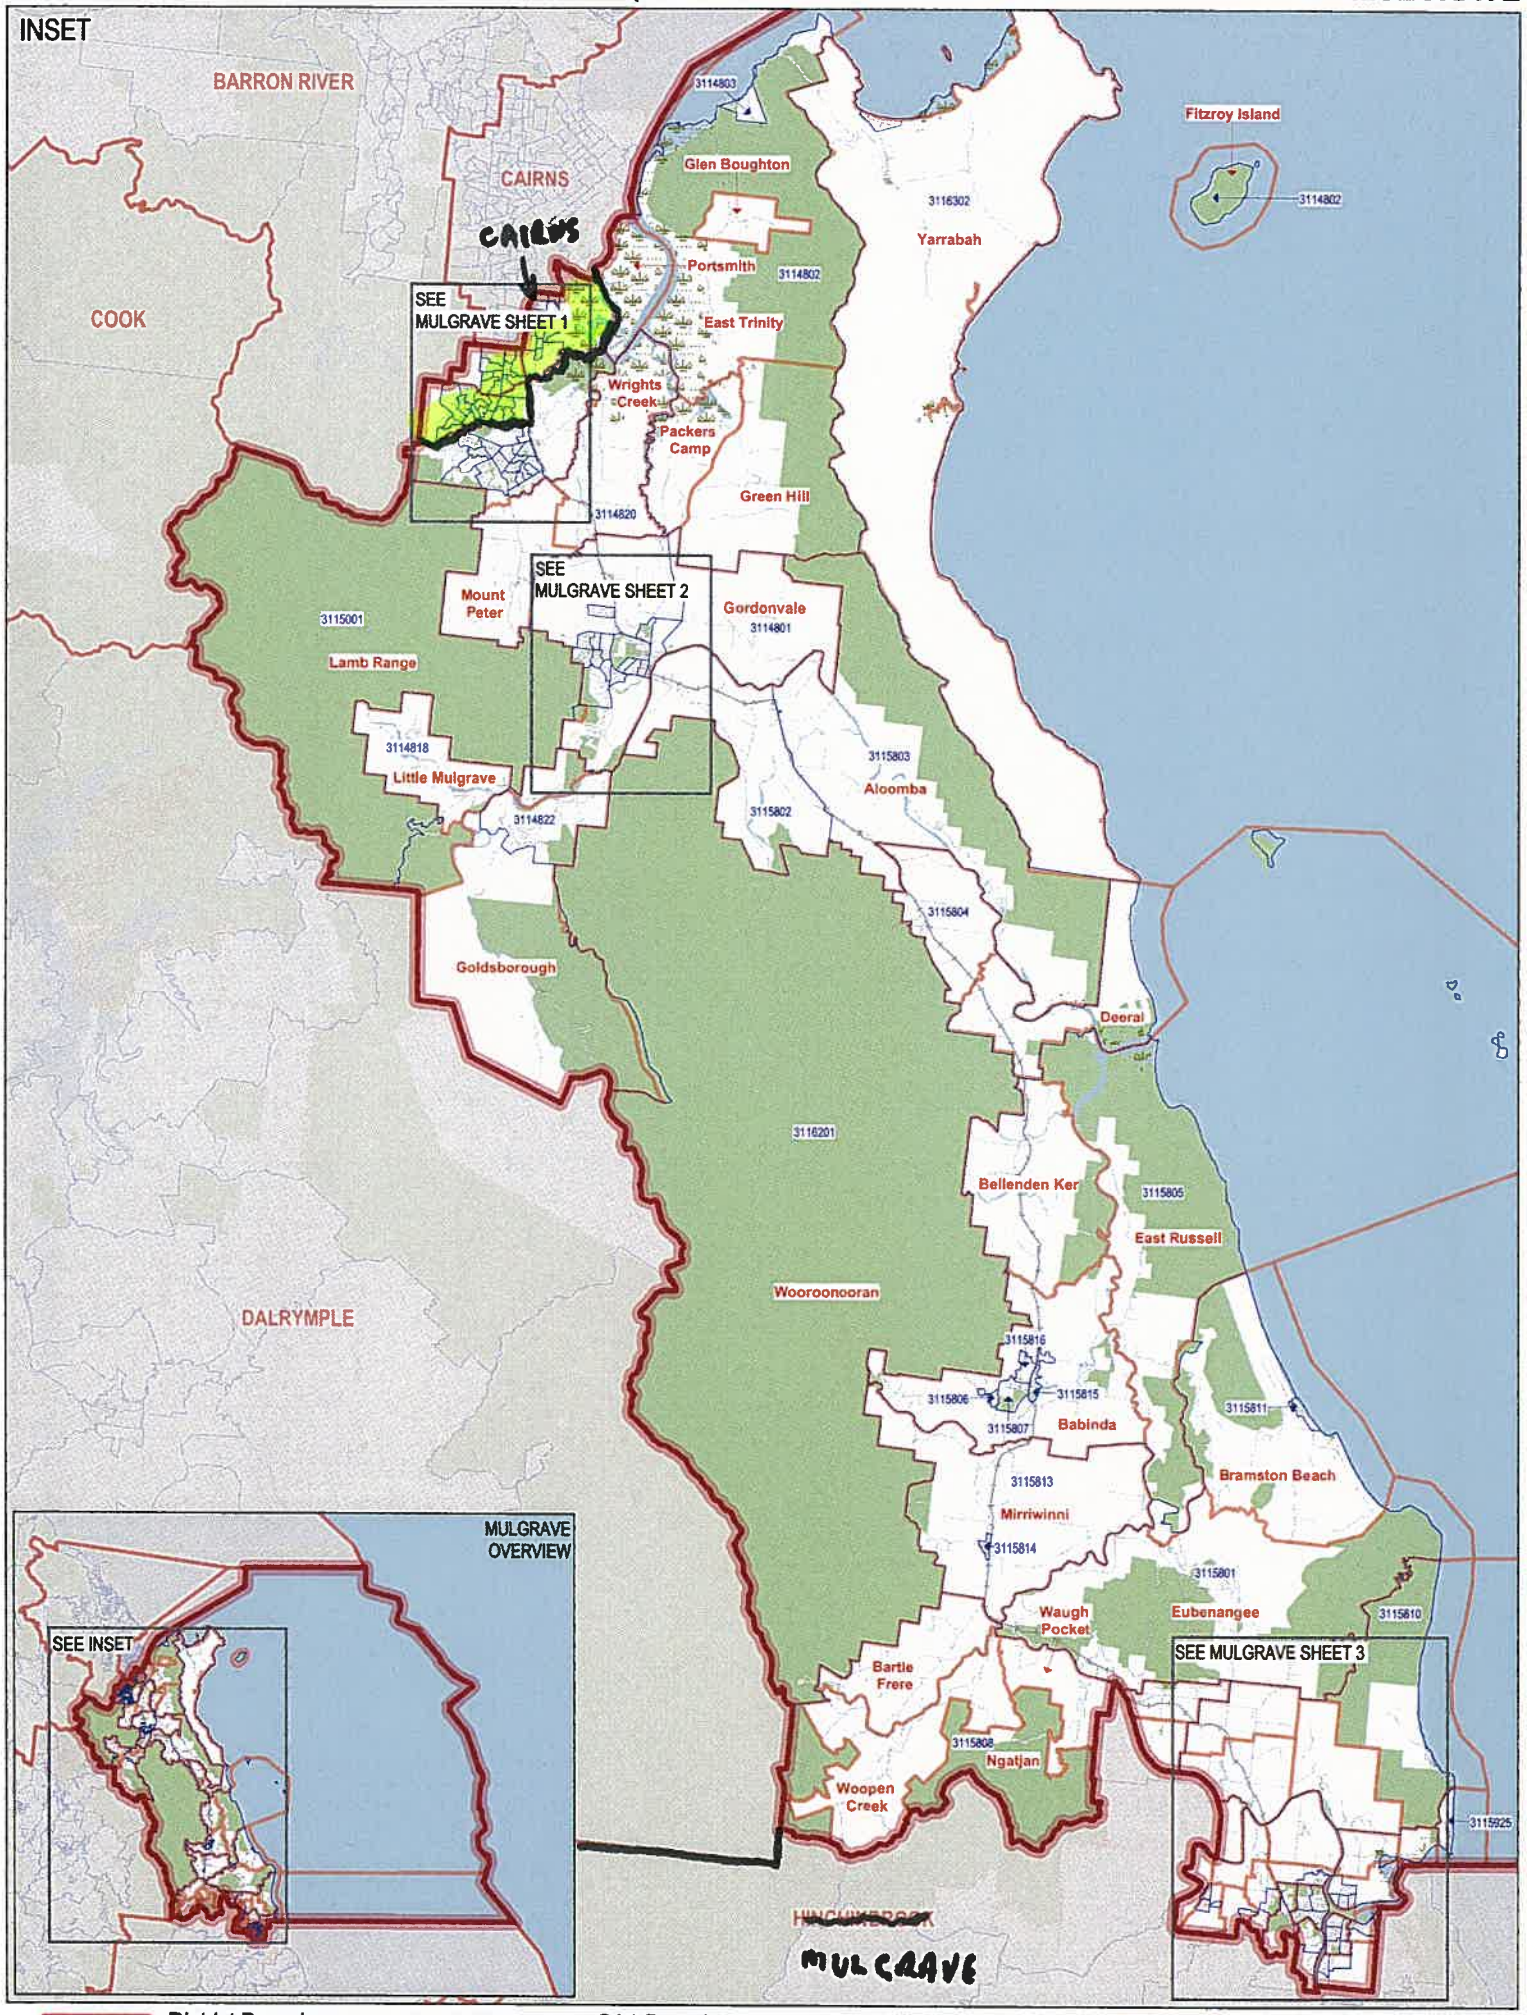

- Districts that I propose remain unchanged from their current (2008) boundaries are not included.
- Districts that only transfer in electors **from** other Districts and do not transfer any area or electors **to** other Districts are not included.

These pages are arranged in the same sequence that my proposal document assesses each electoral District. Ideally, the reader should view both the Proposal (PDF document) and these SA1 District Maps in conjunction with each other.

Disclaimer: Whilst I have taken every effort to ensure that these maps have been modified to accurately display my proposed new boundaries, there may be instances of human error or miscalculation. This may be attributable to the many late nights and early mornings spent modifying these maps, and that my eyes are not as good as they once were! I in no way intend to mislead the reader and I have made all of my changes in good faith. Please note, of the 3 documents supplied, the Excel SA1 document should be treated as the primary source of truth for my proposal.

QUEENSLAND REDISTRIBUTION COMMISSION
14 JUL 2016

The Commissioners
Queensland Redistribution Commission

Dear Commissioners,

I wish to make a submission which has an all districts impact.

I propose to make a narrative description and rely upon an analytical review of the current and future disposition of electors projected for 2022.

The increase in the size of the Legislative Assembly to 93 members will lessen the need to abolish existing electorate, although even with a reduced quota the abolition of at least several electorates is necessary due to unevenness of population growth. My inclination is to use the quota to also ensure that elector enrolments are comparatively even over the life of the redistribution.

I have provided an attachment which I'll refer to as Attachment A. I have grouped existing electorates by region and based on the quota derived for 93 electorates determined the relative surplus and deficiencies of electors. Much of urban, rural and semi-rural areas to the south, west and north of Brisbane have elector surpluses and likely strong growth further expanding these surpluses.

My assessment is that 2 new electorates should be created in the broadly defined Gold Coast Region; that 2 new electorates be created in the Sunshine Coast Region including with electors from adjacent areas on the Fraser Coast; that a new electorate be created in the corridor west of Ipswich taking in electors from Lockyer and Beaudesert; that an electorate in the Brisbane City and Ipswich corridor be abolished. The elimination of one electorate such as Mount Coo-tha or Stafford could enable the increase in enrolments which are significantly deficient and getting worse north, south and west of the Brisbane River. To illustrate 12 of the current 31 electorates are under quota and this grows to 20 in 2022. By contrast the transfer from Ipswich West to the new electorate largely removes the growth in electors which are heavily concentrated in Bundamba, Ipswich and Ipswich West. I would suggest the 'relocation' of one electorate, such as Sunnybank within this region near Bundamba may well be necessary.

Regional commentary

Starting at the most northerly part of the state (the areas I describe as Far North Queensland), the existing 16 electorates have 14,912 electors more than quota but this will decline to 4,298 by 2022. This includes the allowance for large electorates. Whilst I am of the view that the projections for the Townsville region are somewhat pessimistic I consider that all the existing electorates can be maintained with small adjustments.

The region I describe as the Gold Coast and Redlands is the continuation of the coastal strip right up to the Brisbane City Boundary and currently contains 14 electorates. This region is already more than one quota in excess enrolments 42,975, which will grow to 59,946 in 2022. In effect it would not be unreasonable to put two new electorates in this region and clearly one could be created in the existing Coomera.

The region I describe as the Sunshine Coast includes Redcliffe and includes 12 electorates. This region is already more than one quota in excess enrolments 42,171 and will grow to 57,120 in 2022. In effect it would not be unreasonable to put two new electorates in this region and take in part of the surplus from the area I describe as the South Queensland region to accommodate this. One such electorate should be based around Caboolture which is currently awkwardly included in Pumicestone and straddles the Bruce Highway. Pumicestone could be confined to the east of the Bruce Highway and this would be close to quota and be a more logical electorate in terms of boundaries, than at present.

The region I describe as South Queensland is a broad tract of land, outside the main urban and semi-rural areas of the Sunshine and Gold Coast and stretches to just north of the tropic of Capricorn. This region currently contains 16 electorates and is 24,414 electors in excess of quota. This will grow to 42,098 in 2022. The creation of one new electorate in this region and incorporation of the western semi-rural parts of Ipswich West would ease the population excess there and lend itself to the creation of a new electorate between Ipswich and Toowoomba. Other parts of this region could supplement the new electorates in the Sunshine and Gold Coasts, and allow for supplementation of electorates such as Waggeo.

I have split the Brisbane and Ipswich region into a northern, southern, western and south western portions. This region and its sub-components comprises 31 electorates with 23,925 electors in excess of quota, and this will fall to 10,896 in 2022. In the north, south and west of the city there is serious relative elector decline. The only growing sub-region is the south west and this is heavily concentrated in Ipswich West and Bundamba. I have suggested above the transfer of about 17,000 (25,000) electors in the west of Ipswich West to a new electorate, drawling together parts of Lockyer and Beaudesert. The name Somerset could be revived. The elimination of one electorate such as Mount Coo-tha or Stafford could enable the increase in enrolments in other electorates which are significantly deficient and getting worse north, south and west of the Brisbane River.

I have expanded on my commentary in Attachment B.

Needless to say I wish the commissioners well in their deliberations.

Martin Gordon

Electorate Specific Commentary

In the Far North Region, I make the following comments:

Starting at the most northerly part of the state (the areas I describe as Far North Queensland), the existing 16 electorates have 14,912 electors more than quota but this will decline to 4,298 by 2022. This includes the allowance for large electorates. Whilst I am of the view that the projections for the Townsville region are somewhat pessimistic I consider that all the existing electorates can be maintained with small adjustments.

The electorates of Whitsunday and Mackay are defined by regional council boundaries in large part and the former is well above quota and the latter well below quota. I would propose that some of the urban areas of Mackay currently in Whitsunday be transferred to Mackay. This would leave both near quota now and in 8 years' time in 2022.

Mirani is slightly over quota and could be left unchanged, but depending on changes to Keppel, Rockhampton and Callide, some minor changes may make the electorate more coherent in terms of boundaries and socio-economic and community of interest factors.

Barron River and Cairns are both in excess of quota and will remain so, together with Mulgrave, Cook and Dalrymple there is an overall elector excess of about 10,000 (and 10,000 approx. in 2022 but distributed differently). The transfer of Kuranda to Cook or Dalrymple may alleviate this situation in part, with surplus electors from Dalrymple transferred to Gregory etc. Mount Isa is significantly under quota and the addition of notional electors because of increased area only partially rectifies this problem. The splitting of regional councils may become increasingly unavoidable.

Mulgrave may have to become less rural in character taking up surplus electors from Cairns and some electors from Barron River may need to be transferred to Cairns which will increase the flow on effect to Mulgrave. In turn Hinchinbrook may move further north increasing its rural component and losing electors in Deeragun, Bushland Beach and Northern Beaches to Townville based electorates. I repeat my view that the projections for Townsville seem unduly pessimistic and that the current downturn in economic activity there may prove very temporary and it previous strong growth return.

Burdekin is becoming increasingly urban in character and whilst it would be wise to maintain the southern and western boundaries which confirm to a regional council, the loss of some electors in areas such as Fairfield Waters to Mundingburra may be in order. Equally the electorate could be left unchanged as its boundaries with Mundingburra and Townsville are already well defined.

The existing three electorates wholly in the urban area of Townville (Townsville, Thuringowa and Mundingburra) are collectively about 300 voters short of quota and this will grow 3,200 in 2022. It is possible to leave the first two unchanged and be within quota, but the deficiency in Mundingburra needs addressing. The awkward split of older suburbs between Townsville and Mundingburra could be rethought. The inclusion of Vincent in Townville and transfer of those parts of Kirwan east of Thuringowa Drive to Mundingburra should be considered as this would reduce the enrolment of Thuringowa and increase that of Mundingburra. Increasingly Mount Louisa seems an odd fit in Townsville and its placement in Thuringowa (or possibly Mundingburra may make more numerical sense). Otherwise incorporating in Mundingburra parts of Fairfield Waters (from Burdekin) and the inclusion of the parts of Kirwan east of Thuringowa Drive may be sufficient to address numerical concerns.

Adjustments in Cairns and its surrounds offers opportunities to supplement Mount Isa, Dalrymple and Gregory and Waggeo beyond. Collectively they are slightly below quota but this will only get worse in the years up to 2022. The opportunity to move Kuranda (and other areas around Cairns) and transfer electors from Mulgrave to Dalrymple should be considered.

<u>In the Gold Coast Region, I make the following comments:</u>

The region I describe as the Gold Coast and Redlands is the continuation of the coastal strip right up to the Brisbane City Boundary and currently contains 14 electorates. This region is already more than one quota in excess enrolments 42,975, which will grow to 59,946 in 2022. In effect it would not be unreasonable to put two new electorates in this region and clearly one could be created in the existing Coomera.

I have noted that this region could gain two more electorates to take account of its existing (and growing) surplus of electors and that one would logically take in parts of the Coomera electorate. The 'region' is simply a convenience to aggregate electorates and adjustments with neighbouring electorates and also adjacent areas, with some outlying Brisbane electorates, or the adjacent rural and semi-rural areas to the west being combined. The only electorate which will be below quota and that is Capalaba and that will only be 400 below quota and could be left unchanged.

Cleveland and Redlands could have adjustments with electorates such as Capalaba and Coomera and whatever new electorate was created there as well as Chatsworth, which is much closer to Brisbane. A second new electorate would also be nearly viable by being largely west of the Pacific Motorway, possibly called Nerang. All the existing electorates in this region are well in excess of quota. All will require adjustments to create new electorates in this region.

In the Sunshine Coast Region, I make the following comments:

The region I describe as the Sunshine Coast includes Redcliffe and includes 12 electorates. This region is already more than one quota in excess enrolments 42,171 and will grow to 57,120 in 2022. In effect it would not be unreasonable to put two new electorates in this region and take in part of the surplus from the area I describe as the South Queensland region to accommodate this. One such electorate should be based around Caboolture which is currently awkwardly included in Pumicestone and straddles the Bruce Highway. Pumicestone could be confined to the east of the Bruce Highway and this would be close to quota and be a more logical electorate in terms of boundaries, than at present.

Redcliffe could be left unchanged, whilst it is currently in excess of quota it will relatively decline over the period to 2022. Nonetheless some small adjustments to it might be used to supplement changes to Murrumba and flow on effects to neighbouring electorates. Pine Rivers could be left intact as it is currently relatively well-defined and is close to quota now and in 2022.

The creation of an electorate centred on Caboolture will largely absorb the projected excess of electors, in Kallangur, Murrumba, Morayfield, Pumicestone and Glasshouse.

A new electorate in the northerly portion of the Sunshine Coast would absorb the sizeable excess elector enrolment there and combined with surplus electors in adjacent areas in Nanango and Gympie offers a workable electorate outcome. Changes in the South Queensland Region will certainly produce such a voter excess.

In the South Queensland Region, I make the following comments:

The region I describe as South Queensland is a broad tract of land, outside the main urban and semi-rural areas of the Sunshine and Gold Coast and stretches to just north of the tropic of Capricorn. This region currently contains 16 electorates and is 24,414 electors in excess of quota. This will grow to 42,098 in 2022. The creation of one new electorate in this region and incorporation of the western semi-rural parts of Ipswich West would ease the population excess there and lend itself to the creation of a new electorate between Ipswich and Toowoomba. Other parts of this region could supplement the new electorates in the Sunshine and Gold Coasts, and allow for supplementation of electorates such as Waggeo.

Above in relation the Sunshine Coast I refer to the creation of a new electorate in the north of that region, which would flow from surplus electors in the northern half of the Sunshine Coast and a similar surplus of electors in the coastal strip from Mirani to Gympie. Both Hervey Bay and Maryborough are well in excess of quota now and in future, whilst Bundaberg is significantly under quota. Hervey Bay can contract into an even more urban electorate, losing electors to Maryborough and Burnett and with a flow on to Bundaberg, Maryborough to Gympie.

I would suggest for Bundaberg that federal boundaries for Hinkler and Flynn offer ideas, with the use of the Burnett River as a possible boundary for Bundaberg and its confinement south of the River taking in Burnett Heads and Bargara, this change would still mean that Bundaberg was surrounded by Burnett but having a more sustainable elector base and a clear northern boundary along this major river.

The creation of an electorate drawing from elector surpluses in Ipswich West, Lockyer and Beaudesert seems a sensible solution to the uneven growth of population and significant elector growth in this area in particular. The parts of Ipswich West I suggest excising are suburbs north of the Waggeo Highway and west of Brassall West and Amberley (such as Karalee, Pine Mountain, Fernvale, Lowood, Haigslea, Marburg, Minden, Rosewood, Tramp, Walloon, Grandchester).

The region may also contribute to the addition of two new electorates in the Gold Coast, but there is already and projected considerable voter surpluses there already.

Transfers from Keppel to Rockhampton and Mirani, may make for sounder boundaries and also community of interests. The proximity of Gladstone and its growing voter surplus adjacent to Callide offers several transfer options.

The areas around Toowoomba are experiencing uneven growth, but some minor adjustments could see Condamine reduced slightly with transfers to Toowoomba and Southern Downs.

<u>In the Brisbane Region, I make the following comments:</u>

I have split the Brisbane and Ipswich region into a northern, southern, western and south western portions. This region and its sub-components comprises 31 electorates with 23,925 electors in excess of quota, and this will fall to 10,896 in 2022. In the north, south and west of the city there is serious relative elector decline. The only growing sub-region is the south west and this is heavily concentrated in Ipswich West and Bundamba. I have suggested above the transfer of about 17,000 (25,000) electors in the west of Ipswich West to a new electorate, drawling together parts of Lockyer and Beaudesert. The name Somerset could be revived. The elimination of one electorate such as Mount Coo-tha or Stafford could enable the increase in enrolments in other electorates which are significantly deficient and getting worse north, south and west of the Brisbane River.

What is noteworthy with many existing boundaries is their reliance on suburb boundaries and are often quite awkward shapes as a consequence.

The abolition of an electorate such as Mount Coo-tha would enable adjustments to boundaries to increase enrolments in Ferny Grove, Everton, Stafford (if retained and noting that the excess in Brisbane Central is insufficient to bring these electorates up to quota). The flow through to Moggill, Indooroopilly and Mount Ommaney which could again areas such as Sherwood and Corinda from Indooroopilly. Extending Mount Ommaney further south or west would be inconsistent in socio-economic or community of interest terms.

Some reconfigurations of electorates could be made making greater use of main roads. Some of the north westerly portions of Clayfield combined with areas that were formerly in the long abolished Merthyr such as Merthyr, New Farm, Newstead and Fortitude Valley that are east of Gympie Road/Lutwyche Road/Story Bridge Alignment. Combinations involving abolition of Stafford and Mount Coo-tha and creation of a new electorate closer to the CBD based around Merthyr, Wilston, Grange and Windsor together with Kedron and Kalinga from Clayfield. The western portions of Mount Coo-tha are in community of interest terms connected heavily with the CBD currently in Brisbane Central.

Aspley, Ferny Grove and Everton require modest additions of electors and this could be sourced from Stafford, or Ashgrove.

South of the Brisbane River something more than minor adjustments to boundaries is necessary to bring electorates close enough to quota to remain within tolerance during the period to 2022. Transfers from South Brisbane are only sufficient to remedy elector deficiencies in Bulimba, Greenslopes, Lytton and Mansfield. To create alignments along major roads and better community of interest. I would suggest the transfer of Kangaroo Point and East Brisbane to Bulimba, and in turn the transfer from Bulimba of Cannon Hill and Murarrie to Lytton and Tingalpa from Chatsworth to Lytton. The use of Manly Road as a boundary for all its length till it meets the sea could enable a more Brisbane River focused Lytton using Wynnum Road (and Manly Road), the likely use of Boundary Road as the western boundary for Chatsworth.

The Bulimba I proposed would be more closely sited to the Brisbane CBD embracing a series of suburbs connected along the Wynnum and Hawthorne Roads, with its size reducing losing less densely settled areas to Lytton. Greenslopes, Mansfield and Springwood can be modified but are likely to be displaced slightly further from the Brisbane CBD. With Yeerongpilly additional electors from Archerfield and Acacia Ridge would be a least disruptive change as it is currently cast in well-defined boundaries.

In the region I describe as the South Western Brisbane it spans Woodridge to Ipswich. The three electorates of Algester, Sunnybank and Stretton collectively are slightly below quota (1,900), and in 2022 this will grow to about 6,900. They except for about half of Algester are within the City of Brisbane (the other half is in the City of Logan). Given the need to supplement Mansfield and Springwood crossing the Pacific Motorway and taking in Macgregor and/or Eight Mile Plains is workable and would mean that electors will be only sufficient within the City of Brisbane from these electorates for two quotas. I would suggest that the name of one Electorate be removed (and relocated) and the remainder of Algester in the City of Logan be combined with surplus electors in areas in Inala or Bundamba, which is undergoing substantial growth and is to be well in excess of quota.

To the east are three electorates Woodridge, Waterford and Logan, they collectively are outside the City of Brisbane, and in the City of Logan, they are 2,100 voters in excess of quota and will grow to about 4,200 in excess of quota. Apart from a minor transfer from Logan to the southern half of Algester (also in the City of Logan) I believe that modest changes to boundaries between these three electorates is sufficient to maintain them within their existing collective footprint.

The electorates of Inala, Bundamba, Ipswich and Ipswich West (even with the earlier transfers to a new electorate which I nominally suggest be Somerset), together with the Logan City portion of Algester and some additional electors from Logan could form a total of five electorates and the new electorate could be called Greenbank or Boronia.
